A NINJA SHARPENS NINJA!

Faced with the threat of Cobra Mechanic, Boa Destructor and their Snake Mech, the ninja strike back!

LET'S SEND THESE SNAKES BACK TO THEIR HOLES!

I THINK THEY'RE GETTING THE IDEA, KAI.

YEAH, THAT MECH SHOULD SEND A SHIVER DOWN THEIR SCALES!

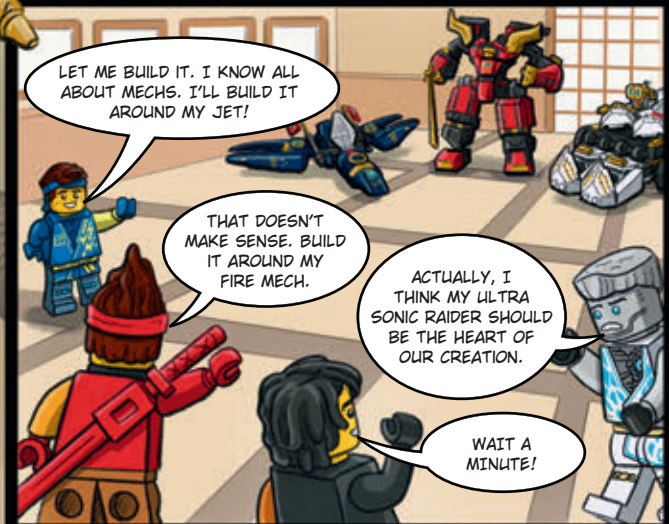

Yesterday...

THE WU BOT SHOWS THAT THE SNAKES WILL BE HERE BY TOMORROW. HOW DO WE STOP THEM?

MAYBE WE COULD DISTRACT THE SNAKES WITH ROBOT MICE?

LET'S COVER THE WHOLE ISLAND WITH GLUE SO THEY'LL GET STUCK.

THEY HAVE A MECH... WE NEED A BIGGER ONE.

LET ME BUILD IT. I KNOW ALL ABOUT MECHS. I'LL BUILD IT AROUND MY JET!

THAT DOESN'T MAKE SENSE. BUILD IT AROUND MY FIRE MECH.

ACTUALLY, I THINK MY ULTRA SONIC RAIDER SHOULD BE THE HEART OF OUR CREATION.

WAIT A MINUTE!

IF WE CAN'T AGREE ON HOW TO GET STARTED, WE'LL NEVER GET THIS DONE. THEN WHO WILL STOP THE SNAKES?

The wisdom of Master Wu...

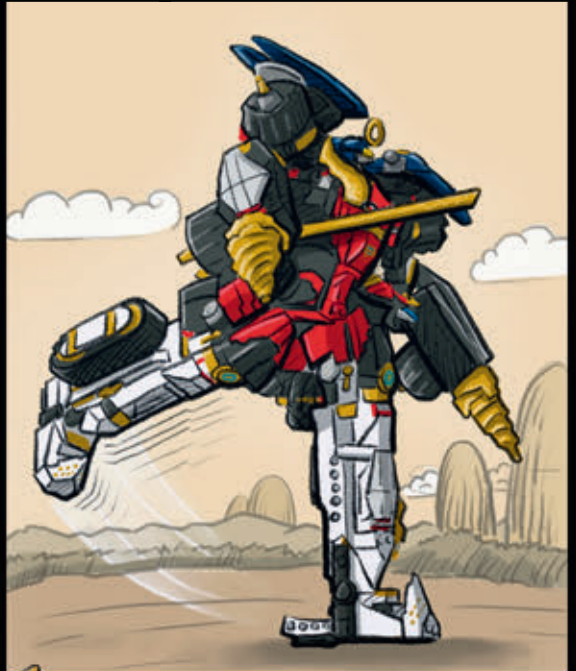

A VEHICLE CANNOT TRAVEL IF ALL ITS WHEELS ARE GOING IN DIFFERENT DIRECTIONS. YOU MUST ACT AS A TEAM AND HELP EACH OTHER TO GET THE JOB DONE.

YOU CAN WORK TWICE AS FAST, OR DO TWICE AS MUCH WORK. THE CHOICE IS YOURS.

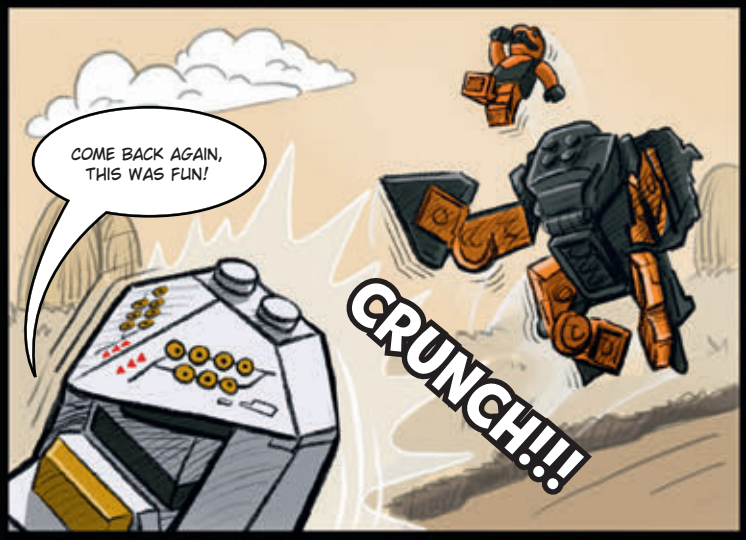

Today...

WE STOPPED ARGUING AND STARTED BUILDING... AND ARE THE SNAKES EVER GOING TO REGRET IT!

COME BACK AGAIN, THIS WAS FUN!

CRUNCH!!!

THEY WILL COME BACK, YOU KNOW.

WELL, THE FOUR OF US WILL BE WAITING...

WITH A LITTLE HELP FROM MASTER WU.

Did You Know...?
Although they look like plants, coral are actually marine animals related to jellyfish and sea anemones.

TIPS FOR BUILDING YOUR OWN MODELS

- Don't worry about matching the colors of whatever it is you are creating.
- Use whatever colors you like!

CREATING A CORAL REEF

Coral reefs, like the one shown in this amazing model, are the colorful homes to many different types of aquatic life. How many different ocean creatures can you spot in this picture?

Meet the Model Builders

For adult LEGO® builders Sharon Vance and Amy Willis, the chance to work together to create a model of a coral reef fit in beautifully with their love for the natural world.

"Amy and I had a great time working together to create our underwater scene and were inspired by our appreciation for clean, beautiful water," said Sharon. "We were both raised in Michigan [in the United States], which is known as the Great Lakes state, and is surrounded by miles of water that people from all over come to enjoy."

Along with being a beautiful, detailed model, Sharon and Amy's creation is a reminder of how important coral reefs are to the environment and why it is important to protect them. Coral reefs provide shelter and food to many marine animals.

Sharon Vance is a former chemistry professor who specializes in making large LEGO mosaics.

Amy Willis is a LEGO Ambassador and enjoys building with her daughter.

MAKING FRIENDS WITH NATURE!

Market Day Maze!

 Mia and her friends have been working together to grow vegetables on their houseboat. Now it's time to bring them to the farmer's market!

Sail the houseboat through the maze to reach the dock and deliver all the fresh produce.

A GARDEN OF FUN FACTS!

1 Some of the best plants to grow on a boat are tomatoes, peas, spinach and strawberries, because they can be grown in small pots of soil.

TRUE FALSE

2 There are more than a dozen floating villages around the world, where people live on their boats or sometimes in houses built on stilts.

TRUE FALSE

3 Vegetables grown on a boat taste salty because of the sea spray getting on them.

TRUE FALSE

Answers can be found at the bottom of this page

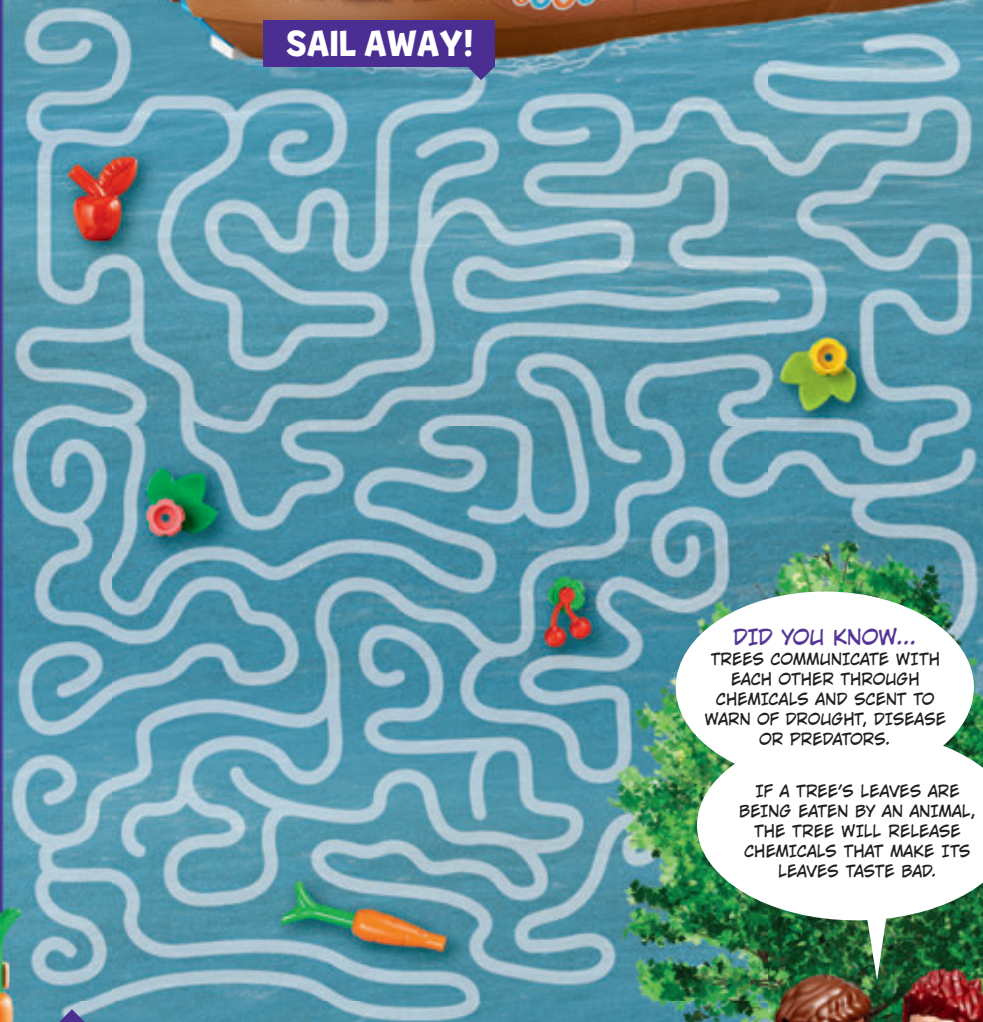

DOCK THE BOAT

ANSWERS:

- 1. TRUE** Smaller pots save space on the boat and, with less soil, they are less likely to tip over.
- 2. TRUE** Many people live in floating villages for reasons of their job (usually fishing), because of a lack of available land for them to live on, or for other reasons.
- 3. FALSE** To grow plants successfully on a boat, they need to be protected from salty sea water, so they are usually grown under a sprayhood that keeps water off of them.

SAIL AWAY!

DID YOU KNOW...
TREES COMMUNICATE WITH EACH OTHER THROUGH CHEMICALS AND SCENT TO WARN OF DROUGHT, DISEASE OR PREDATORS.

IF A TREE'S LEAVES ARE BEING EATEN BY AN ANIMAL, THE TREE WILL RELEASE CHEMICALS THAT MAKE ITS LEAVES TASTE BAD.

Next issue of the LEGO® Life Magazine out in July!

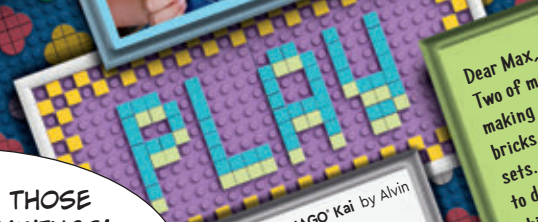

Dear Max,
I call my build "Minecraft® Village City". Here's a tip for your magazine. Maybe you could put lots of LEGO® bricks in a tiny bag (not plastic, please), stick them to the activity page and then the puzzlers get these LEGO bricks as a reward! You can build with them yourself.
You can build with them yourself.
Max, I hope you like my LEGO world. I drew you a picture, because I'm quite good at drawing. Thanks Max!!!

Dear Max,
Hi, I'm a LEGO Life Magazine lover. I love to look at magazines, read magazines and even be in magazines! I made a Cool Creation of a cat made out of DOTS. Its colors are green, hot pink, light pink, orange, white, purple, teal and light teal.
Cora

Dear Max,
Two of my favorite things are making new things with LEGO bricks and playing with NINJAGO® sets. I thought it would inspire you to do this too. I built this 4-way ship for the ninja to use.
