SPACE QUEST

Get your friends and become space explorers together! Start on Earth, next land on the Moon, then circle Mars with the Friends, and reach the Space Station before launching into the stars!

HOW TO PLAY?

Each player picks a LEGO® brick, a minifigure, or a mini-doll figure and places it on START, as a playing piece.

Use a LEGO brick as a dice, throw it to move:

Studs up
1 space

Studs down
2 spaces

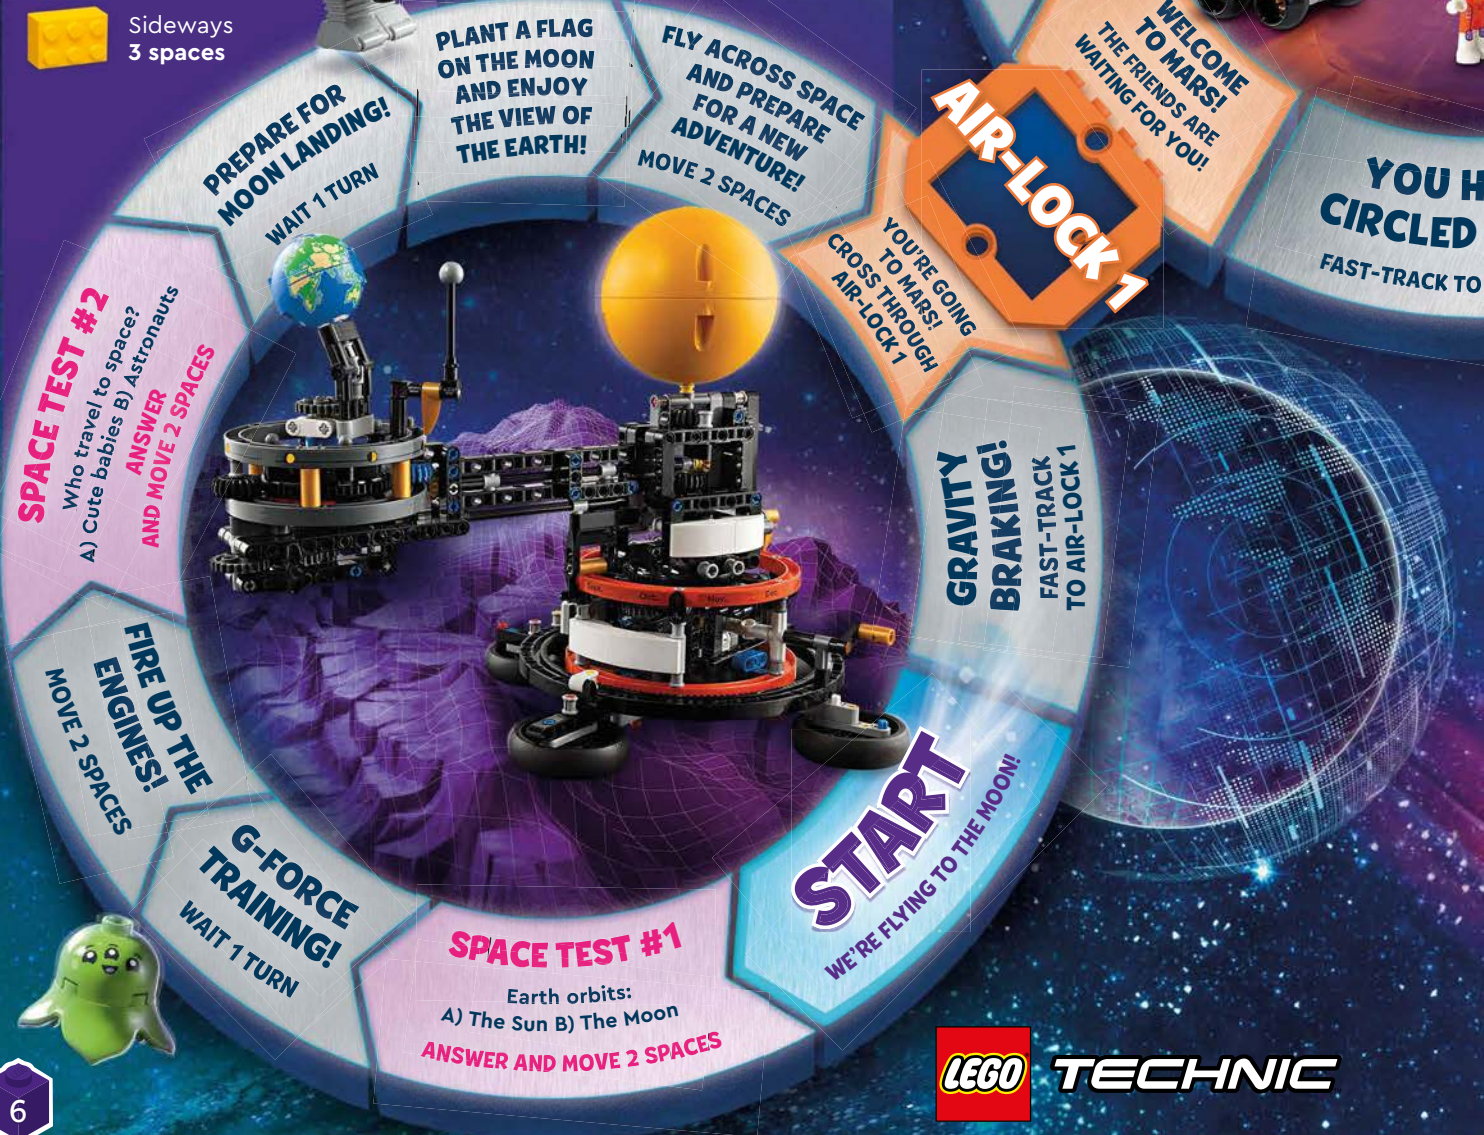

Sideways
3 spaces

- 1 The youngest player starts.
- 2 Throw the brick and move. Follow the directions of the arrows and instructions on the board.
- 3 Player on the left goes next.
- 4 The only way to cross into another ring is through **AIR-LOCK 1** and **AIR-LOCK 2**.
- 5 The first player to land on the FINISH space wins!

OUTDOOR FUN

While Paisley and Sky get the fun going at the fire pit, Zac helps with the tent. But hey, what are Aliya and Nova looking at?

1

Liann and Leo go on a bike ride.

Sky is building a fire.

Paisley is playing the lute.

3

ADVENTURE TIME!

Use the numbers to plan the Friends' day at the campsite. We got it started with Paisley playing the lute. What would you like to do at a campsite? Draw it in the boxes!

STARGAZING

Not all the lights in the sky are stars. Some are planets! Did you know that Saturn has a set of rings around it? Jupiter's Great Red Spot is actually a massive storm, and Mars has big ice caps! Help Aliya and Nova match the right name to each planet.

Need help? Find the answer on page 27.

2. SATURN

3. MARS

DID YOU KNOW?

'Planet' means 'a wanderer' in ancient Greek. Earth is a planet because it orbits the Sun, but the Moon is a satellite because it circles the Earth!

Zac is putting up a tent.

3...2...1... BLAST OFF!

What happens in zero gravity? Who were the first living beings to leave Earth and enter space? Read the fun facts to find out!

When using a toilet, astronauts must **buckle up**. No floating away, please!

To leave Earth, a rocket needs to reach a speed of over **25,000** miles per hour (40,000 km/h). That's a lot of headwind!

Spaceships are painted **white** to better reflect sunlight. Otherwise, the Sun's radiation would damage electronics and overheat the ship's interior.

As many as **34** dogs have flown on space missions ...

Because of zero gravity, in space astronauts get **3%** taller! Their height returns to normal once they're back on Earth.

... but the first living beings from Earth to reach space were actually tiny **fruit flies!**

... is how much taller astronauts get in space.

Fruit flies ...

... is the color of spaceships used to better reflect the Sun's radiation.

25,000 mph (40,000 km/h) ...

3% ...

... were the first beings from Earth to enter space.

JOIN THEM UP!

Connect the space facts to complete the sentences.

White ...

... is the speed a rocket needs to reach to escape Earth's gravity.

THE FORGETFUL MR. OZ

1

IN THE DREAM WORLD, MR. OZ HAS JUST RESCUED JAYDEN FROM THE GRIP OF THE EVIL GRIMSPAWN. BUT LITTLE DOES HE KNOW THAT HIS TROUBLES ARE NOT OVER YET.

WE'RE DONE HERE. LET'S GO HOME, JAYDEN.

WOW, YOUR SPACE CAR IS SO COOL!

2

BUT I FEEL LIKE THERE'S STILL SOMETHING...

OH NO! I FORGOT JAYDEN!

3

I MUST SAVE HIM!

BUT I'M HERE! I'M HERE!?!

4

YOU SAVED ME ALREADY!

HUH? OH, YEAH. I DID...

5

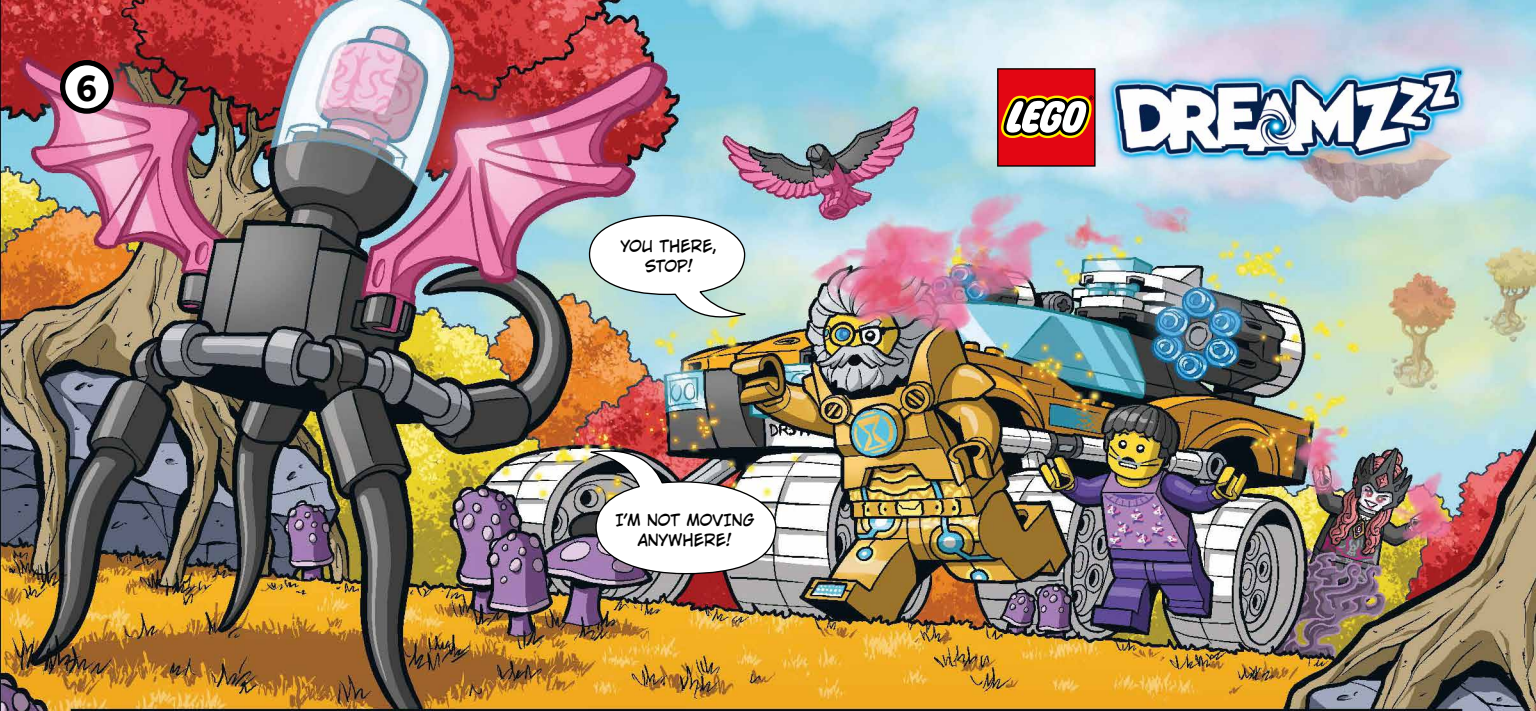

LET'S GO BACK, MR. OZ!

YES, BUT I'VE GOT THIS FEELING...

...OH NO!

LOVE THE WAY YOU BUILD

Hi, I'm Sacha Olivier, a LEGO® creator who loves hiking, arts and building with LEGO bricks! I'm a high school student in France and enjoy taking part in LEGO workshops with my classmates. I also lead LEGO workshops for builders who are visually impaired, like me. I started building when I was very young and as I gradually lost my sight, I continued to express my creativity with LEGO bricks.

I plan what I want to build in my mind first

I think of an idea and plan every detail to work out how to add them into my build.

How do you plan your builds?

I like to sort my LEGO® bricks by type

Sorting bricks helps me to find them without too much searching. I sort them by shape (e.g. flat bricks), size (e.g. 2x2 bricks) and use (e.g. windows or wheels).

How do you sort your bricks?

Sometimes I get stuck on which bit to build next

If that happens, I stop building, and get back to it later.

Do you take breaks when you get stuck?

I think we should all let our imaginations guide us

My top tip for builders is to let your imagination run free and build whatever you want to build.

What will you build today?

DANCE WITH GABBY

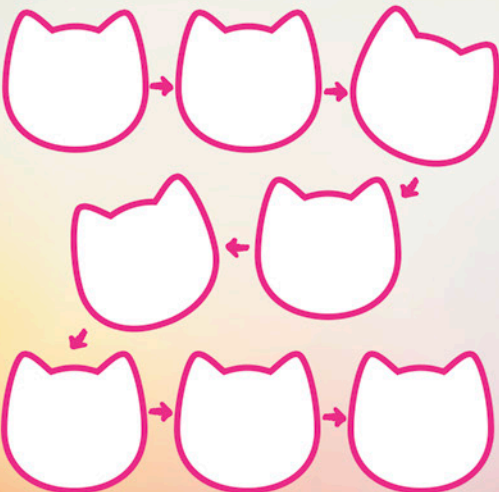

Gabby is having a party at the top of her dollhouse. There are cat friends, music, and lots of fun! How should Gabby dance?

Dear Grown-Ups!
 Show your child your favorite dance move, then ask them to share theirs! Can you combine the two and create your signature dance?

MIX UP THE MOVES!

Do it your way. Write in the numbers or draw the moves inside the spaces to create Gabby's special dance!

3 **MERCAT SNAP**

4 **PANDY PAWS BUMP**
