SPACE QUEST

Get your friends and become space explorers together! Start on Earth, next land on the Moon, then circle Mars with the Friends, and reach the Space Station before launching into the stars!

HOW TO PLAY?

Each player picks a LEGO® brick, a minifigure, or a mini-doll figure and places it on START, as a playing piece.

Use a LEGO brick as a dice, throw it to move:

Studs up
1 space

Studs down
2 spaces

Sideways
3 spaces

- 1 The youngest player starts.
- 2 Throw the brick and move. Follow the directions of the arrows and instructions on the board.
- 3 Player on the left goes next.
- 4 The only way to cross into another ring is through **AIR-LOCK 1** and **AIR-LOCK 2**.
- 5 The first player to land on the FINISH space wins!

What happens in zero gravity? Who were the first living beings to leave Earth and enter space? Read the fun facts to find out!

When using a toilet, astronauts must **buckle up**. No floating away, please!

To leave Earth, a rocket needs to reach a speed of over **25,000** miles per hour (40,000 km/h). That's a lot of headwind!

Spaceships are painted **white** to better reflect sunlight. Otherwise, the Sun's radiation would damage electronics and overheat the ship's interior.

As many as **34** dogs have flown on space missions ...

Because of zero gravity, in space astronauts get **3%** taller! Their height returns to normal once they're back on Earth.

... but the first living beings from Earth to reach space were actually tiny **fruit flies!**

... is how much taller astronauts get in space.

Fruit flies ...

... is the color of spaceships used to better reflect the Sun's radiation.

25,000 mph (40,000 km/h) ...

3% ...

... were the first beings from Earth to enter space.

White ...

... is the speed a rocket needs to reach to escape Earth's gravity.

JOIN THEM UP!

Connect the space facts to complete the sentences.

MY OHANA

 To Lilo and Stitch Ohana means family, and family means that nobody gets left behind or forgotten. Who is your Ohana? You can draw it or write about it below.

HERBOLOGY LESSON

Welcome to Professor Sprout's class, where you'll learn about magical herbs and fungi. Today's topic: Mandrakes.

AMAZING POWERS

Although they can walk and scream, Mandrakes are actually magical plants.

THEY LIKE COMPANY

Teenage Mandrakes can jump out of their pots and throw parties together!

BE CAREFUL!

Mandrakes are known for their screams, so protect your ears when you are near them.

THE FORGETFUL MR. OZ

1

IN THE DREAM WORLD, MR. OZ HAS JUST RESCUED JAYDEN FROM THE GRIP OF THE EVIL GRIMSPAWN. BUT LITTLE DOES HE KNOW THAT HIS TROUBLES ARE NOT OVER YET.

WE'RE DONE HERE. LET'S GO HOME, JAYDEN.

WOW, YOUR SPACE CAR IS SO COOL!

2

BUT I FEEL LIKE THERE'S STILL SOMETHING...

OH NO! I FORGOT JAYDEN!

3

I MUST SAVE HIM!

BUT I'M HERE! I'M HERE!?!

4

YOU SAVED ME ALREADY!

HUH? OH, YEAH. I DID...

5

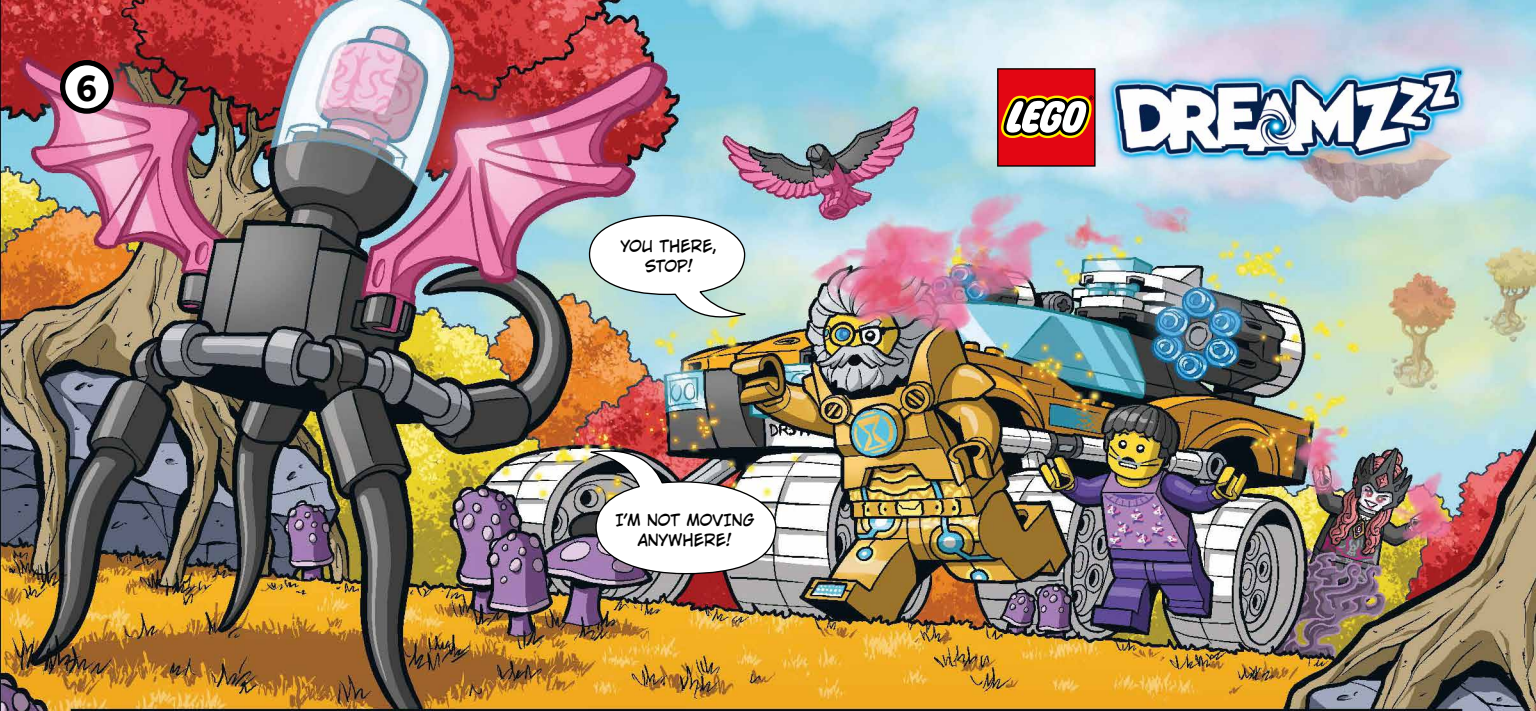

LET'S GO BACK, MR. OZ!

YES, BUT I'VE GOT THIS FEELING...

...OH NO!

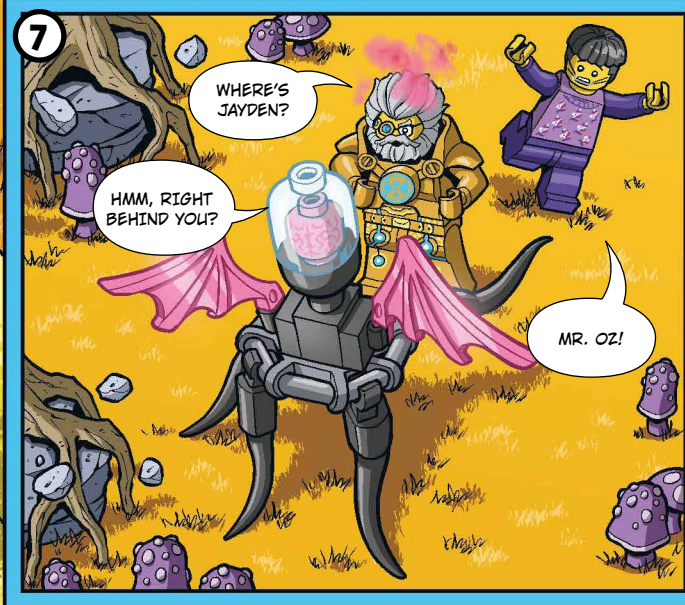

Don't forget to watch the new DREAMZZZ™ series! Join Mr. Oz and his friends in the quest against the Never Witch at KIDS.LEGO.COM/SHOWS/DREAMZZZ

YOU THERE, STOP!

I'M NOT MOVING ANYWHERE!

7

WHERE'S JAYDEN?

HMM, RIGHT BEHIND YOU?

MR. OZ!

8

YOU SAVED ME ALREADY! YOU JUST KEEP FORGETTING IT!

WHAT?

SIGH...

I NEED A NEW JOB.

9

SOMEONE MUST HAVE TINKERED WITH MY MEMORY. OH, I JUST REMEMBERED SOMETHING!

WHAT IS IT?

IT'S DINNER TIME!

HE, HE!

10

DON'T YOU EVER THINK I'LL LET YOU GO THIS EASILY, MR. OZ!

YOUR MEMORIES WILL BELONG TO ME!

SPACE CHASE

Grogu is in trouble again! He and Kelleran Beq are zooming on the BARC Speeder™ with Clone Troopers behind them. Will they escape?

IN YOUR GALAXY

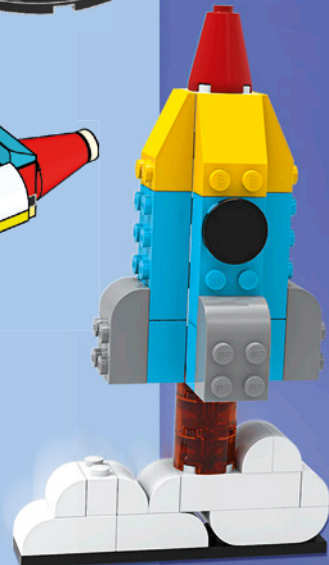

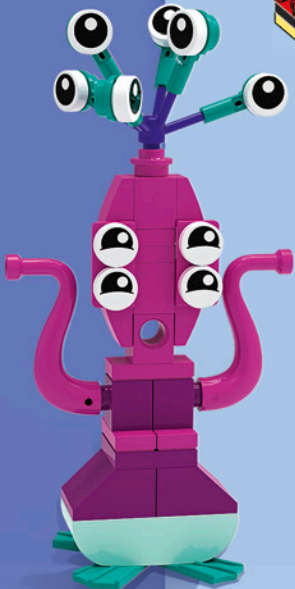

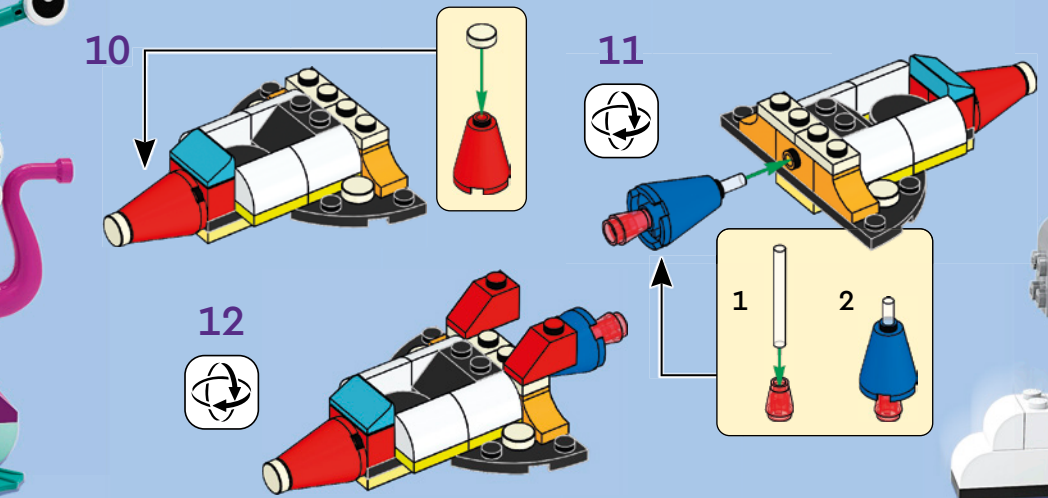

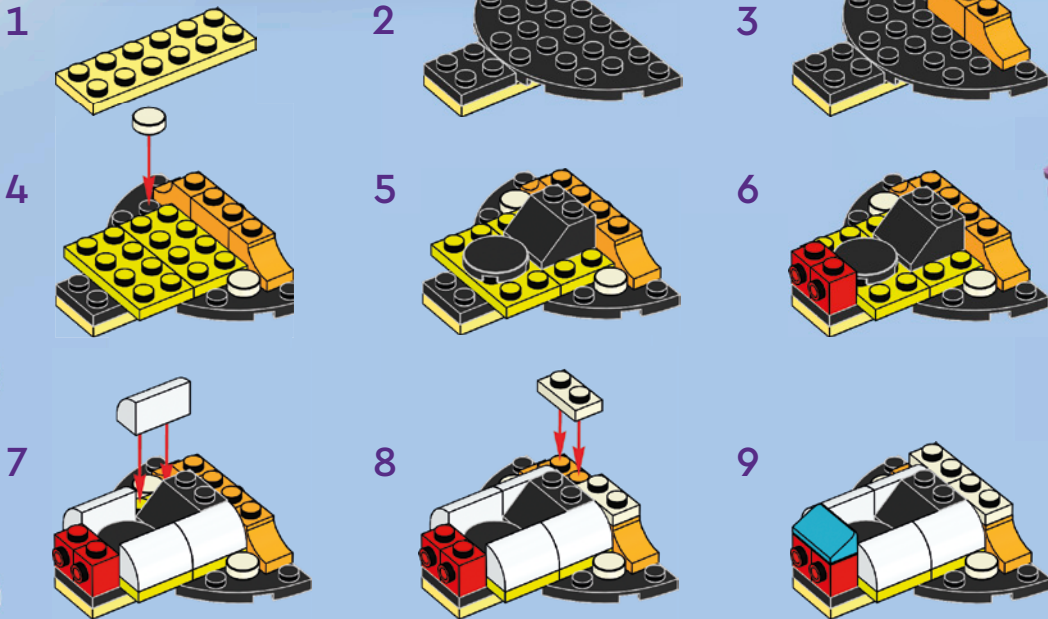

Enter Grogu's world using the Force, your pencils and your imagination! Color in the picture or draw over it to create something new. How about adding more Clone Troopers to make the chase more exciting?

BUILD A ROCKET!

It's time to grab all your intergalactic LEGO® bricks and set off for space! Use any shape or color you like. Experiment and have fun!

LOVE THE WAY YOU BUILD

Hi, I'm Sacha Olivier, a LEGO® creator who loves hiking, arts and building with LEGO bricks! I'm a high school student in France and enjoy taking part in LEGO workshops with my classmates. I also lead LEGO workshops for builders who are visually impaired, like me. I started building when I was very young and as I gradually lost my sight, I continued to express my creativity with LEGO bricks.

I plan what I want to build in my mind first

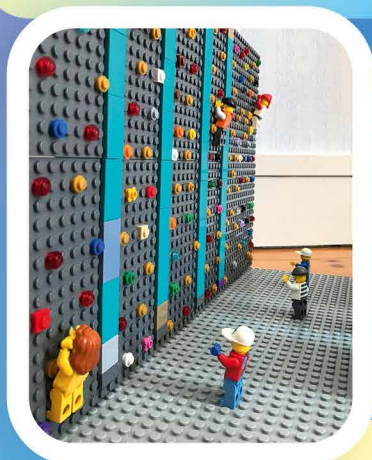

I think of an idea and plan every detail to work out how to add them into my build.

How do you plan your builds?

I like to sort my LEGO® bricks by type

Sorting bricks helps me to find them without too much searching. I sort them by shape (e.g. flat bricks), size (e.g. 2x2 bricks) and use (e.g. windows or wheels).

How do you sort your bricks?

Sometimes I get stuck on which bit to build next

If that happens, I stop building, and get back to it later.

Do you take breaks when you get stuck?

I think we should all let our imaginations guide us

My top tip for builders is to let your imagination run free and build whatever you want to build.

What will you build today?

WINDMILL DEFENSE

The sheep need you to protect them! The lurking zombie is trying to catch them through the openings in the maze, before the herd can hide in The Windmill Farm.

STOP THE ZOMBIE

The zombie can use many openings in the maze to cross the sheep's path. Pick three LEGO® bricks from your collection and put them on any of the yellow brick pictures. Place the bricks to stop the zombie from getting the sheep.

LET'S GO ROCK HUNTING!

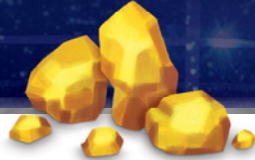

Drive the LEGO® Technic™ Surface Space Loader in search of treasures! Explore the minerals you find and check out all the awesome things you can do with them.

IRON

There is lots of iron in asteroids. It's also used to build skyscrapers, cars, bridges and planes!

GOLD

The gold coating protects satellites and astronauts' helmets from solar heat.

QUARTZ

Exploding massive stars create silica, which can turn into quartz crystals. It is in the sand found on the beaches along the coasts.

DIAMOND

This form of carbon is the hardest rock known on Earth! But carbon can also be soft, like the graphite inside your pencil!

GALACTIC GEMS

It is not easy to bring back precious minerals from space. Look for the four names in the grid and circle the ones you've found.
