## Elegante por naturaleza

Cuando diseñamos un arreglo floral LEGO®, la naturaleza nos ofrece una enorme abundancia de colores, especies de plantas y olores como fuente de inspiración. Mientras combinamos flores en colores vibrantes y tonos pastel con elegantes hojas de un intenso verde, experimentamos con nuevas técnicas (y usos creativos de los elementos LEGO) para dar vida a este opulento ramo. Cada detalle se ha recreado meticulosamente para rendir un homenaje tan auténtico como artístico a los diversos tesoros de la naturaleza.

*El equipo de diseño de LEGO® Botanical*

De hierbajo rebelde a apreciada flor para ramos, esta belleza increíblemente popular entre las abejas y las mariposas crece con fuerza en Europa y Norteamérica.

(*Centaurea cyanus*)

(*Eucalyptus pulverulenta*)

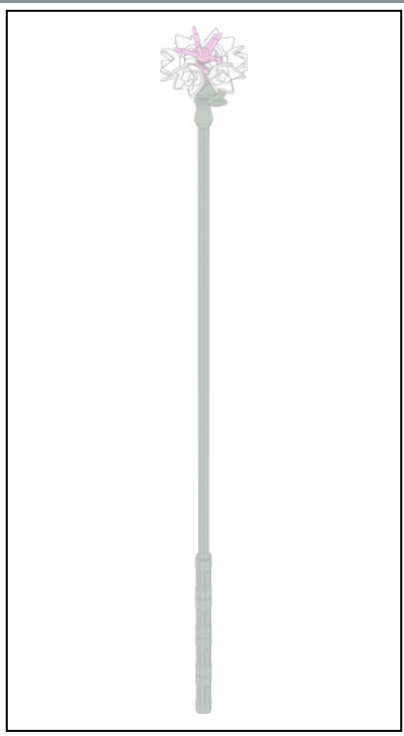

## EUCALIPTO AZUL

Conocido también como goma de montaña con hojas plateadas de Australia, este miembro de la especie de los eucaliptos es un clásico en los ramos de flores de todo el mundo.

Las especies de arbustos caducifolios de saúco varían en todo el mundo, pero la mayoría produce delicadas flores blancas y bayas de color púrpura oscuro. Ambas son sabores muy populares en platos y bebidas.

## MARGARITA AZUL

Comunes en Europa y Norteamérica, las margaritas azules, símbolo del compromiso y la confianza, son el regalo perfecto para un ser querido.

A nuestras minifiguras LEGO® también les gustan las flores. Esta florecilla fue originalmente una pequeña peonía y ahora forma el centro de una rosa.

## CAMPANILLA DE CANTERBURY

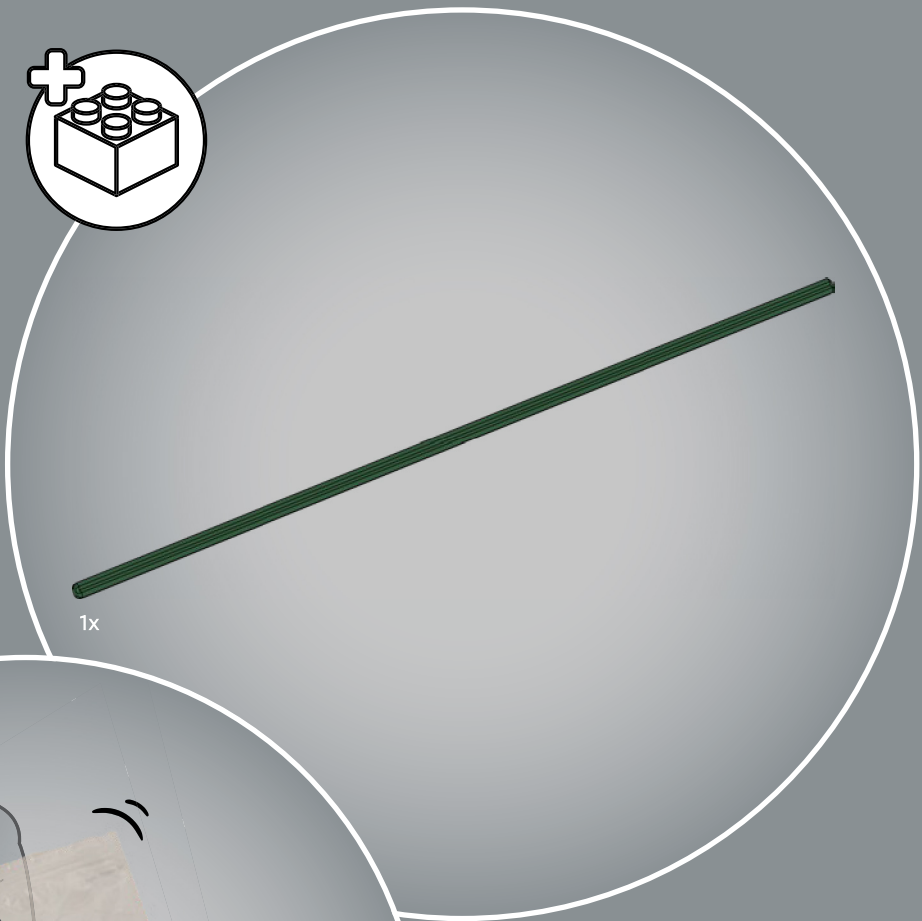

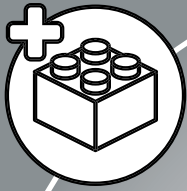

Los farolillos de la *Campanula*, una especie bienal de la flora del sur de Europa típica del verano, tienen forma de campana en tonos azules, blancos o rosas.

## RANÚNCULO

Los ranúnculos, autóctonos de Europa, Norteamérica y Asia, con intrincadas capas de pétalos en colores pastel, siempre son una opción popular para los ramos de flores.
