Élégance naturelle

Lorsque nous créons une composition florale LEGO®, nous pouvons nous inspirer de la profusion de couleurs, d'espèces végétales et de parfums que la nature nous offre. En combinant des fleurs aux tons pastel ou aux couleurs vives à des conifères au port majestueux, nous avons expérimenté de nouvelles techniques et utilisé des éléments LEGO de façon créative pour donner vie à ce somptueux bouquet. Chaque détail méticuleusement recréé est un hommage authentique et artistique aux multiples trésors de la nature.

L'équipe de design LEGO® Botanique

Autrefois considéré comme une mauvaise herbe et aujourd'hui souvent mis à l'honneur dans les bouquets, le bleuet est très présent en Europe et en Amérique du Nord et particulièrement apprécié des abeilles et des papillons.

(*Centauria cyanus*)

LE BLEUET

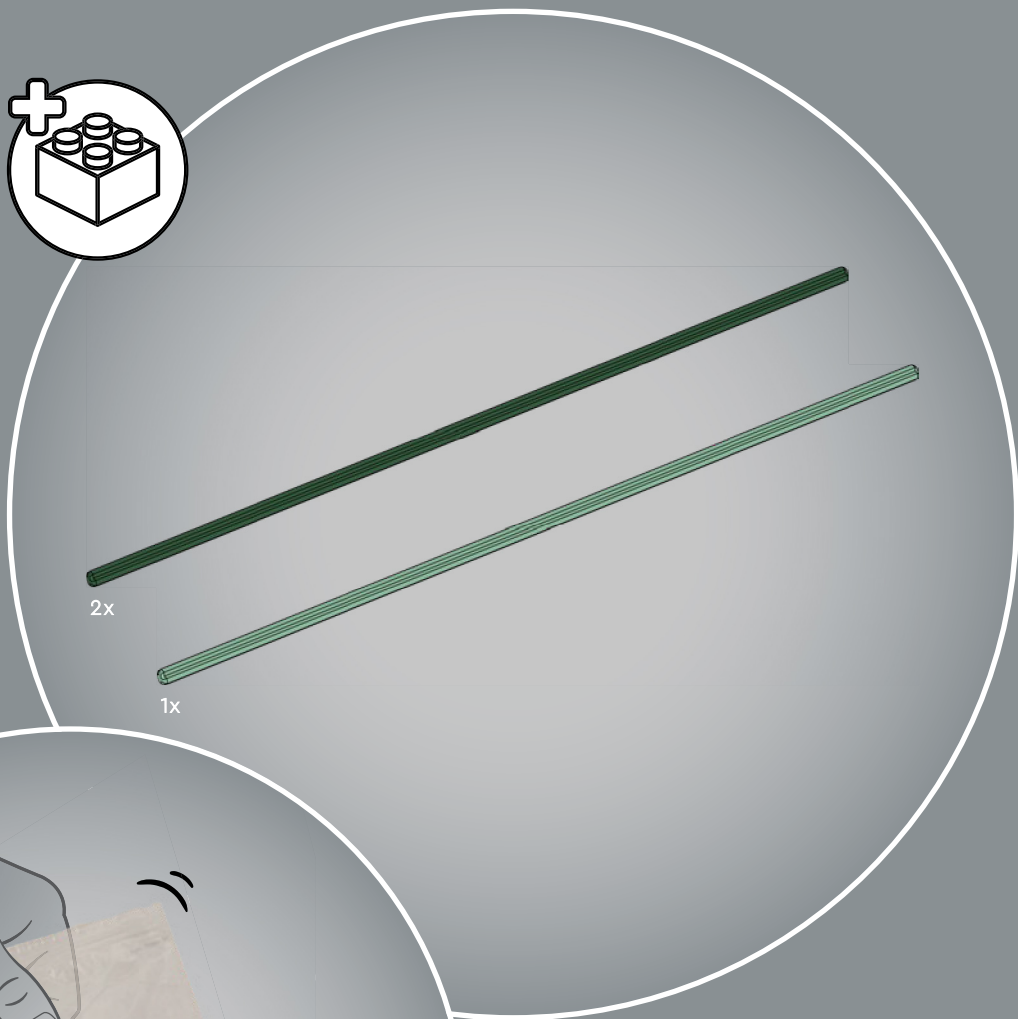

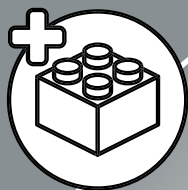

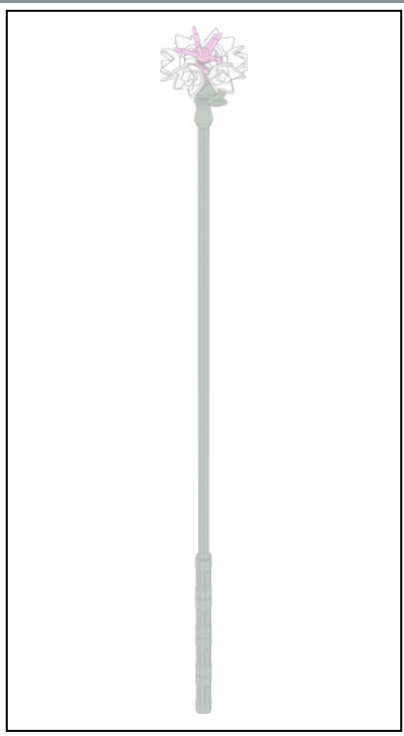

(*Eucalyptus pulverulenta*)

L'EUCALYPTUS « BABY BLUE »

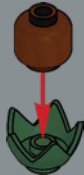

Également connu sous le nom de gommier argenté de montagne, ce membre de la famille des eucalyptus agrmente souvent les bouquets de fleurs dans le monde entier.

LE SUREAU NOIR

Il existe différentes espèces de sureau à feuilles caduques à travers le monde, mais la plupart produisent de délicates fleurs blanches et des baies violet foncé. Les unes comme les autres sont très appréciées dans la préparation de mets et de boissons.

LA ROSE

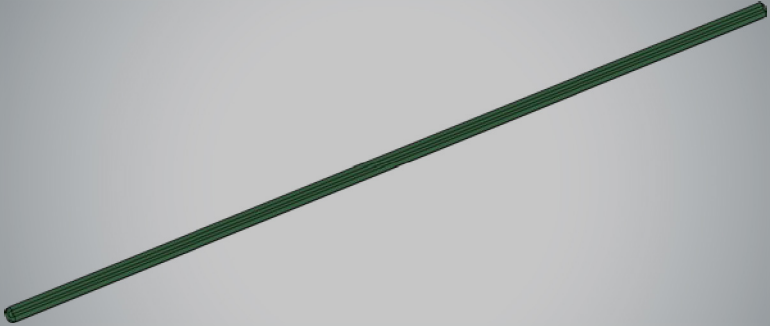

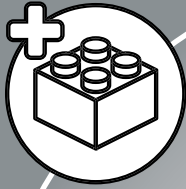

Symbole d'amour et emblème de beauté depuis des siècles, la rose apporte de la grâce à tous les bouquets, et ce, quelle que soit sa couleur, qu'il s'agisse de fleurs véritables ou de modèles LEGO®.

(Felicia amelloides)

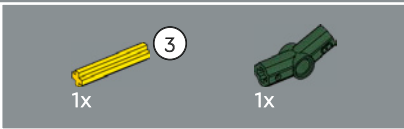

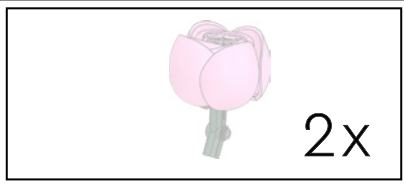

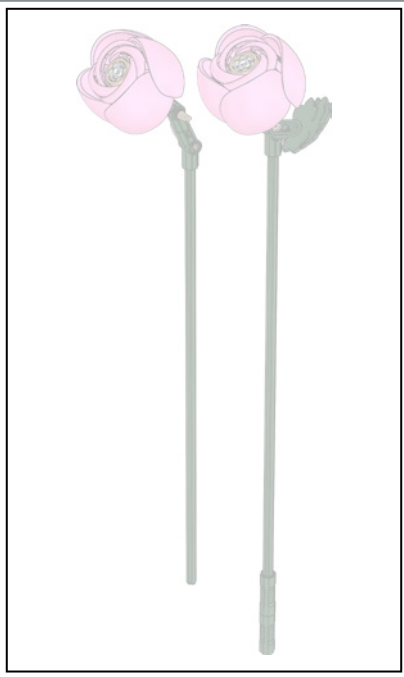

L'ASTER DU CAP

Commune en Europe et en Amérique du Nord, l'aster du Cap symbolise l'engagement et la confiance, ce qui en fait un cadeau parfait pour les personnes que vous chérissez.

Nos minifigurines LEGO® aiment aussi les fleurs. Cette petite fleur, conçue à l'origine comme une petite pivoine, constitue aujourd'hui le centre d'une rose.

La spirale de pétales centrale de cette rose a été construite avec des passages de roue de voitures LEGO®.

(Campanula medium)

LA CAMPANULE CARILLON

Plante bisannuelle originaire du sud de l'Europe, la campanule produit des fleurs en forme de calice ou de cloche, généralement dans des teintes de bleu, blanc ou rose tout au long de l'été.

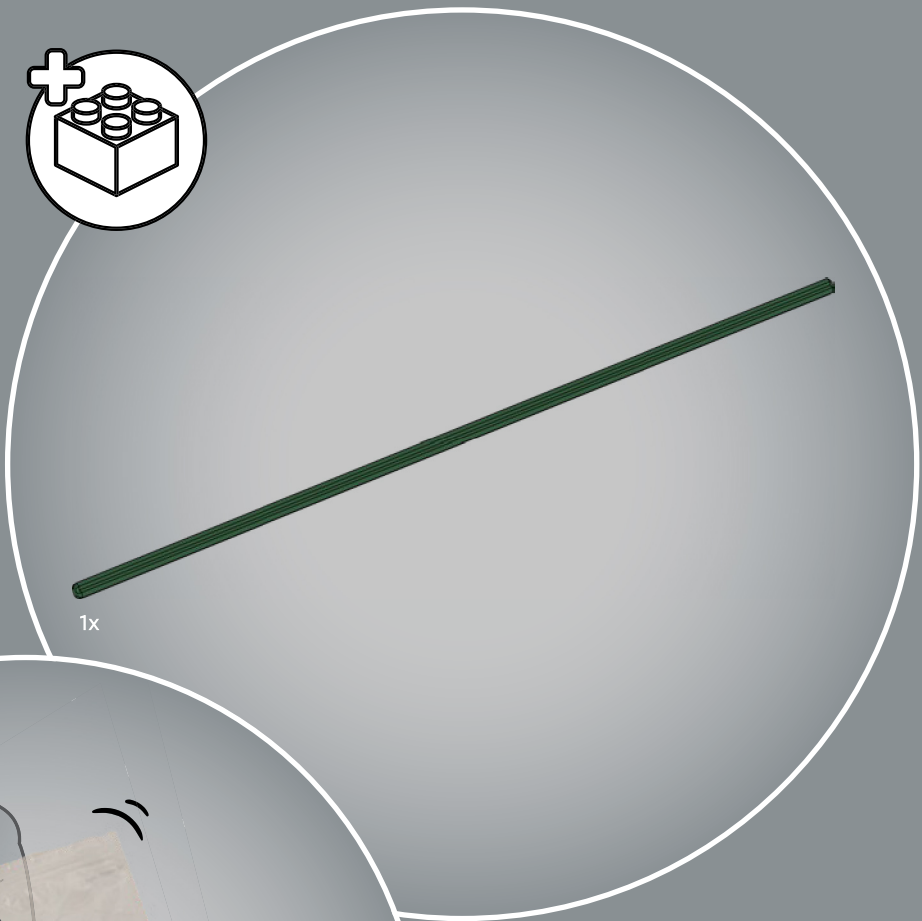

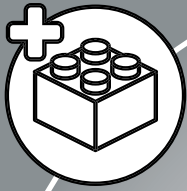

(Ranunculus)

LA RENONCULE DES FLEURISTES

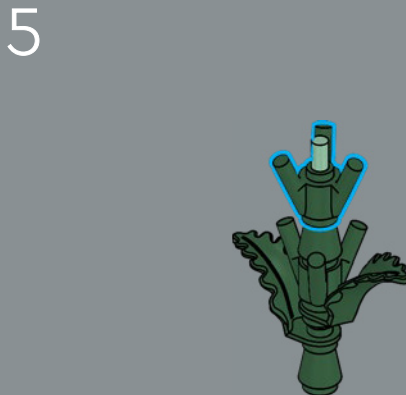

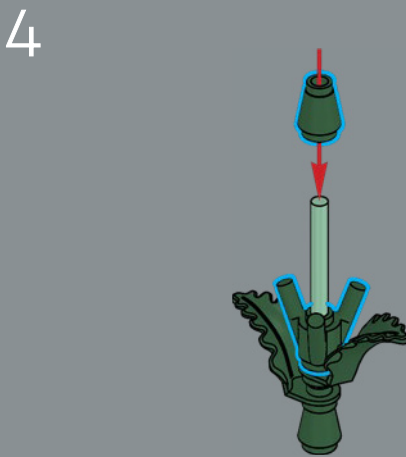

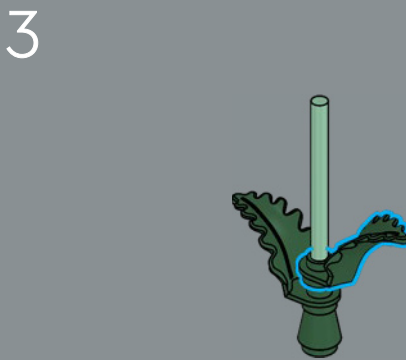

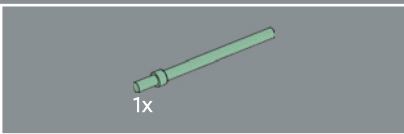

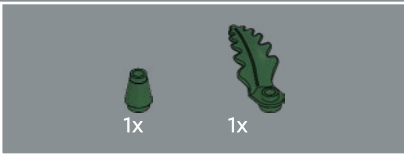

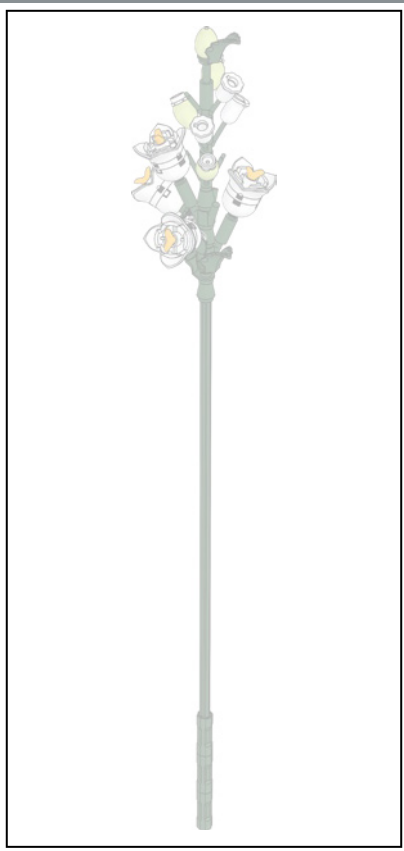

Originaire d'Europe, d'Amérique du Nord et d'Asie, la renoncule des fleuristes, avec ses couches complexes de pétales de couleur pastel, est toujours un élément apprécié dans les bouquets.
