# UN REGALO DE NATURALEZA CREATIVA

La colección LEGO® Botanical te invita a explorar un sinfín de posibilidades creativas. Los sets, inspirados en la flora de todas las regiones del mundo, permiten a los amantes de la naturaleza disfrutar de un original y colorido arreglo de "flores eternas". Este set en particular presenta una composición cuidadosamente seleccionada de elementos populares en los ramos de flores, elegantemente expuestos en un jarrón blanco con pie... y versatilidad integrada.

*Camellia x williamsii*

## Camelia Night Rider

*Originario del Reino Unido, este arbusto perenne de porte compacto y hojas brillantes de color oscuro se caracteriza por sus flores de un tono burdeos intenso, semidobles, que florecen a finales del invierno y principios de la primavera. En los jardines, puede alcanzar hasta 1,5 m de altura y de ancho.*

## Peonía Itoh

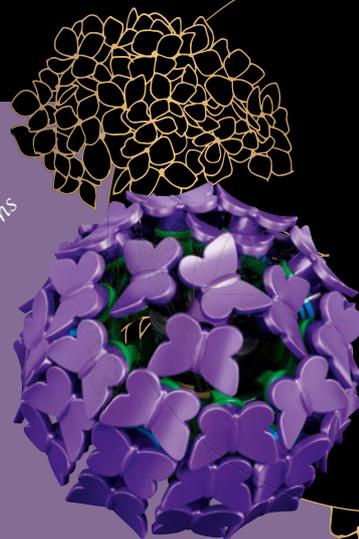

Las peonías interseccionales se cultivaron por primera vez en Japón en la década de 1940. Como híbridos entre peonías arbóreas y herbáceas, sus flores pueden alcanzar un tamaño de hasta 20 cm de diámetro.

No suelen recomendarse para su cultivo en maceta, pero podemos asegurarte que esta versión LEGO® florecerá en cualquier época del año.

*Peonia Itoh*

*Hydrangea arborescens*

## Hortensia

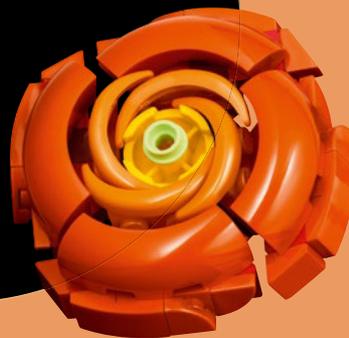

Originario de Asia, América del Norte y América del Sur, existen más de 70 especies de este majestuoso arbusto repartidas por jardines de todo el mundo. Las flores cambian de color dependiendo del pH del suelo: azules en suelos ácidos, de tonos rosados en suelos alcalinos y blancas en suelos neutros.

## Velo de novia

Muy común en los arreglos florales en todo el mundo, la planta velo de novia es ligera como una nube de verano. Representa el amor eterno y aporta un toque de elegancia a cualquier ramo o centro de mesa, incluso seca en jarrones o coronas decorativas.

*Gypsophila paniculata*

*Ranunculus*

## Ranúnculo persa

El ranúnculo persa, una planta tuberosa perenne, puede alcanzar hasta 60 cm de altura. Sus flores, con pétalos densamente estratificados en colores suaves o brillantes, son suntuosas y duraderas, e iluminan cualquier espacio, tanto en interiores como en jardines.

Bouvardia

## Flor de colibrí

Como pequeños ramos que rematan cada tallo, estas flores se despliegan en forma de encantadoras estrellitas, lo que dio lugar a sus otros nombres habituales: "petardo" o "trompetilla". Originarias de América Central, también tienen parientes en Europa y Canadá.

## Azucena

Con entre 80 y 100 especies, y casi las mismas variaciones cromáticas, las azucenas nos cautivan con su agradable fragancia y su intenso brillo. Símbolos de elegancia atemporal y pureza, son una opción muy apreciada en celebraciones y actos de sinceridad.

Lilium

# PLANTA UNA SEMILLA DE INSPIRACIÓN

Construir tu Arreglo Floral LEGO® Botanical es solo el comienzo. Cada vez que te apetezca darle un nuevo aire a tu decoración, cambia las flores entre los tallos o mezcla varios sets para crear ramos totalmente diferentes. De este modo, puedes ajustar el modelo a cualquier estación, a tu estado de ánimo o al nuevo estilo de tu hogar. Y si ya tienes experiencia como florista LEGO, ¡ánimate a reinventar tu set creando nuevas variedades!
