# UN CADEAU DE LA NATURE CRÉATIVE

La collection LEGO® Botanique ouvre la voie à de nombreuses possibilités créatives colorées. Avec des sets inspirés de la flore du monde entier, les amoureux de la nature peuvent se laisser tenter par une version colorée et gaie de ces « fleurs éternelles ». Pour ce set, nous avons imaginé une composition harmonieuse en plaçant des éléments de bouquet dans un joli vase blanc sur pied – transformable à l'infini.

*Camellia x williamsii*

## Le camélia hybride de Williams Night Rider

*Cultivé à l'origine au Royaume-Uni, cet arbuste compact aux feuilles persistantes, sombres et brillantes, est orné de fleurs semi-doubles marron foncé qui fleurissent à la fin de l'hiver et au début du printemps. Dans les jardins, il peut atteindre jusqu'à 1,5 m de haut et de large.*

## La pivoine Itoh

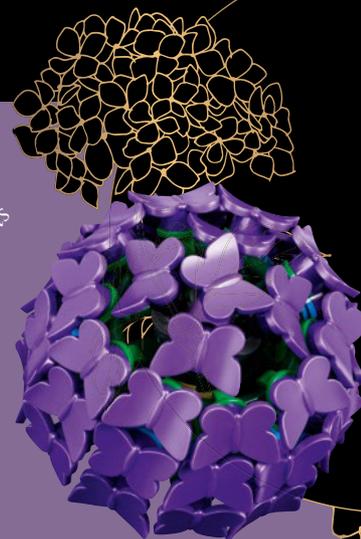

C'est au Japon que la pivoine intersectionnelle a été cultivée pour la première fois, dans les années 1940. Hybride entre les arbres et les pivoines herbacées, ses fleurs peuvent atteindre 20 cm de large.

Bien qu'elle n'apprécie généralement pas de se retrouver dans un pot, cette version LEGO® fleurira à coup sûr toute l'année.

*Paeonia Itoh*

*Hortensia arborescens*

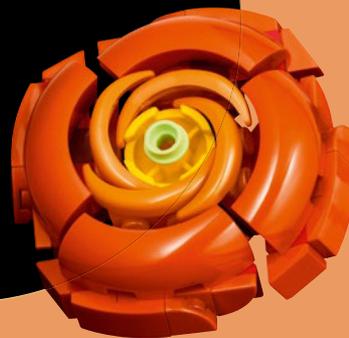

## L'hortensia

Originaires d'Asie, d'Amérique du Nord et d'Amérique du Sud, plus de 70 espèces de ces arbustes majestueux ont pris racine dans les jardins du monde entier. La couleur des fleurs varie selon le pH du sol, du bleu (acide) au rose (alcalin), en passant par le blanc (neutre).

## Le gypsophile

Élément de base prisé dans les compositions florales du monde entier, le gypsophile est léger comme un nuage d'été. Symbole de l'amour éternel, il apporte une touche de grâce à un bouquet ou un centre de table, même lorsqu'il est séché et disposé dans des vases ou sur des couronnes.

*Ranunculus*

## La renoncule des fleuristes

Plante vivace tubéreuse, la renoncule des fleuristes peut atteindre jusqu'à 60 cm de haut. Avec ses pétales densément superposés aux couleurs douces ou vives, cette fleur coupée somptueuse et durable illumine n'importe quel espace, à l'intérieur ou dans votre jardin.

Bouvardia

## La bouvardie

Chaque tige semble être un bouquet miniature et chaque fleur s'ouvre en prenant la forme d'une ravissante petite étoile, inspirant d'autres noms familiers comme « buisson de pétards » ou « trompettes ». Bien qu'elle soit originaire d'Amérique centrale, on trouve également certains membres de sa famille en Europe et au Canada.

## Le lys

Comptant entre 80 et 100 espèces et presque autant de variations de couleurs, le lys nous fascine par son parfum agréable et sa beauté lumineuse. Symbole d'élégance et de pureté intemporelles, il est apprécié et souvent utilisé lors d'occasions spéciales ou pour exprimer des sentiments profonds.

Lilium

# PLANTEZ UNE GRAINE D'INSPIRATION

Construire une composition florale LEGO® Botanique n'est que le début. Chaque fois que vous souhaitez modifier votre composition, il vous suffit d'intervertir les têtes des fleurs entre les tiges ou de combiner plusieurs sets pour créer de tout nouveaux bouquets. Modifiez-la selon la saison, votre humeur et votre décoration intérieure. Si vous êtes déjà un(e) fleuriste LEGO chevronné(e), pourquoi ne pas vous diversifier et transformer votre set en d'autres espèces !
