# UN DONO DI NATURA CREATIVA

La collezione LEGO® Botanicals apre le porte a un campo colorato ricco di possibilità creative. Con set ispirati alla flora di tutto il mondo, gli amanti della natura possono scoprire solari interpretazioni di "fiori destinati a durare per sempre". Per questo set, abbiamo realizzato una composizione equilibrata di elementi di bouquet popolari in un elegante vaso bianco con piedistallo, con versatilità incorporata.

*Camellia x williamsii*

## Camelia rosa

*Questo arbusto sempreverde compatto, dalle foglie lucide scure, è ornato da fiori semidoppi rosa scuro che sbocciano a fine inverno e all'inizio della primavera. Nei giardini, questo tipo di camelia può raggiungere 1,5 m di altezza e larghezza.*

## Peonia Itoh

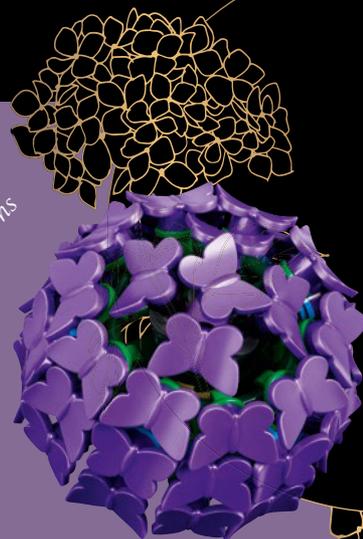

Le peonie intersezionali furono coltivate per la prima volta in Giappone negli anni '40. Trattandosi di ibridi tra alberi e peonie erbacee, i loro fiori possono raggiungere 20 cm di larghezza.

Solitamente non idonea come pianta da vaso, questa versione LEGO®, tuttavia, garantisce la fioritura tutto l'anno.

Peonia Itoh

Hydrangea arborescens

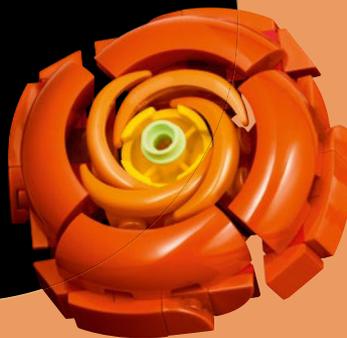

## Ortensia arborescens

Originarie dell'Asia, del Nord America e del Sud America, le oltre 70 specie di questi maestosi arbusti ormai popolano i giardini di tutto il mondo. I fiori variano di colore in base al pH del terreno: blu (acido), rosa (alcalino) e bianco (neutro).

## Gipsofila

Un elemento base popolare nelle composizioni floreali di tutto il mondo, la gipsofila è leggera come una nuvola estiva. Simbolo di amore eterno, aggiunge un'aria di grazia a ogni bouquet o centrotavola, anche essiccato in vasi o ghirlande.

*Ranunculus*

## Ranuncolo

Pianta perenne tuberosa, il ranuncolo può crescere fino a 60 cm di altezza. Con i suoi petali densamente stratificati in colori tenui o luminosi, questo fiore reciso sontuoso e duraturo illumina qualsiasi spazio, dentro casa o nel tuo giardino.

Bouvardia

## Trombetta

*Come un bouquet in miniatura in ogni stelo, ogni fiore di bouvardia esplode in una fantastica forma a stella tubolare che ispira il suo nome comune di "trombetta". Originaria dell'America centrale, la trombetta è presente al giorno d'oggi anche in Europa e Canada.*

## Giglio

*Con 80-100 specie e quasi altrettante varianti di colore, i gigli ci affasciano con il loro profumo gradevole e l'intensità luminosa. Simbolo di eleganza e purezza senza tempo, è un fiore che viene spesso scelto per le celebrazioni e le commemorazioni.*

Lilium

# PIANTA UN SEME DI ISPIRAZIONE

Costruire una composizione floreale LEGO® Botanicals non è che l'inizio. Ogni volta che desideri riorganizzare la tua composizione, dovrai solo scambiare i capolini tra gli steli o aggiungere più set per creare bouquet completamente nuovi. Qualunque sia la stagione, il tuo umore o il tuo arredamento. Se sei già un fioraio LEGO esperto, perché non ingrandisci o ricostruisci il tuo set con specie diverse?

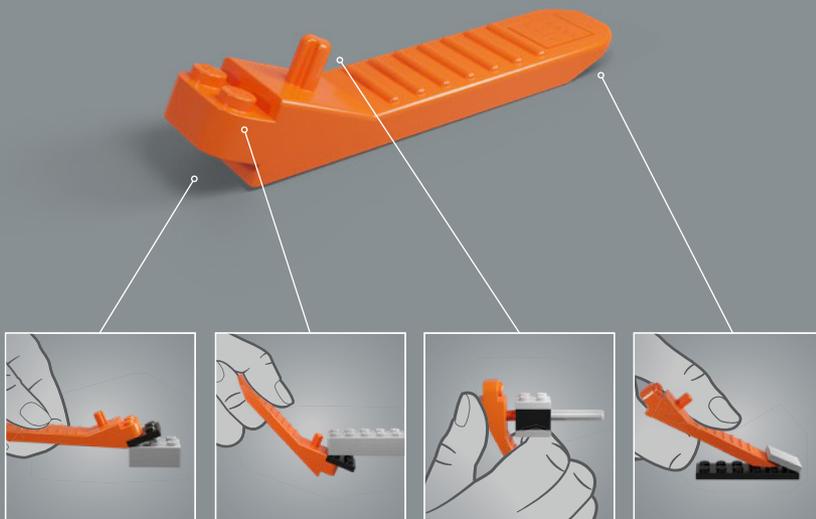

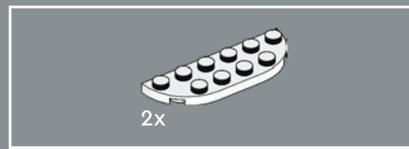

Scopri come far sbocciare la tua creatività accedendo al tuo account LEGO® Insiders su
