LEGO® Builder

Construye tu serenidad

Acepta nuestra invitación a un jardín tranquilo y sereno donde puedes permanecer todo el tiempo que quieras.

Tu feliz estancia podría inspirarte para nutrir tus raíces creativas, o incluso animarte a cultivar tu propio rincón dedicado a la atención plena y la reflexión. Este es tu espacio. Esperamos que te sientas como en casa entre la floreciente vegetación y la vida silvestre que se congregan en torno a la fuente. Quizá reconozcas algunas de las especies que habitan en tu jardín o que hayas contemplado en tu inolvidable viaje al destino de tus sueños.

Cada elemento es lo más fiel posible a la zona, la cultura y la arquitectura. Las preciosas baldosas decorativas están inspiradas en los mosaicos *zellige* creados con pequeñas teselas que han formado parte de la tradición arquitectónica del norte de África y el sur de Europa durante siglos y que aportan una atmósfera armoniosamente vívida a edificios, decoraciones interiores y jardines. También decidimos ampliar la colección de polillas y mariposas LEGO® con la fascinante mariposa isabelina, que destaca por su brillante color verde. Puedes dar un soplo de nueva vida a tu jardín moviendo las plantas a diferentes lugares según tu estado de ánimo, o simplemente dejándolas tomar el sol o refrescarse a la sombra según los ciclos naturales. Incluso puedes reorganizar secciones más grandes del modelo para crear distintas formas y expresiones.

“El resultado de dar vida a este idílico Jardín con Fuente es tener en tu hogar un poco de ambiente veraniego en cualquier época del año”.

El equipo de diseño de LEGO®

La vida de
tu jardín

Estas piezas decoradas, creadas especialmente para el set, se inspiran en los mosaicos *zellige*, elaborados con pequeñas teselas. Es frecuente encontrar estas composiciones en la arquitectura de lugares históricos y monumentos de países como Marruecos, Argelia o Túnez, y también en Andalucía, en el sur de España.

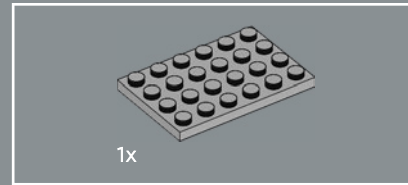

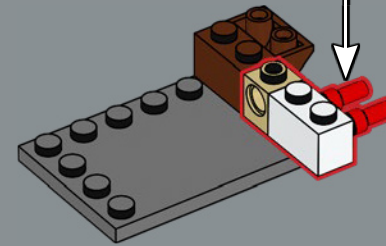

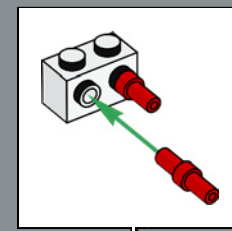

Las piezas que componen estos mosaicos pueden usarse para crear patrones que se repiten infinitamente, lo que se conoce como *teselado*. ¿Cuántos patrones diferentes puedes crear?

Hibisco (*Hibiscus rosa-sinensis*)
Las flores de hibisco pueden usarse para probar la acidez de un líquido. Sus pétalos adoptan un tono rosa oscuro si se exponen a un ácido, o uno verde si tienen contacto con una base. ¡Son perfectas para medir la pureza de tu fuente!

Bougainvillea (*Bougainvillea*)
 Si bien la mayoría de las personas consideran las partes más coloridas de la bougainvillea como sus flores, estas en realidad son brácteas: hojas de un tipo distinto que rodean a las verdaderas y minúsculas flores de la planta.

188

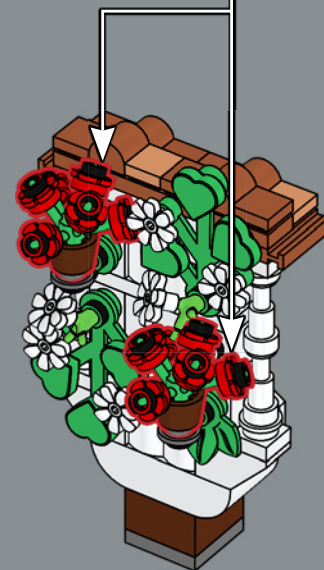

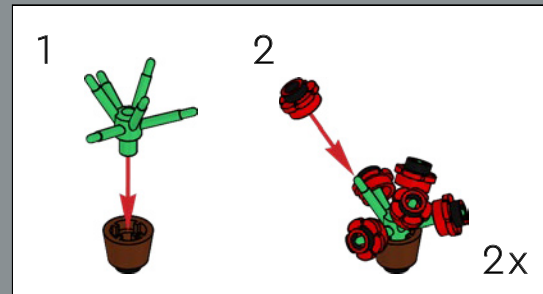

189

Petunia blanca (*Petunia axillaris*)
 Aunque algunas especies de petunias pueden usarse en la gastronomía con una función ornamental, quizá sea mejor dejar que esta belleza florezca en tu jardín. No solo está estrechamente emparentada con las patatas y los tomates, ¡sino también con la belladona!

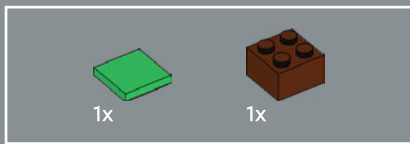

190

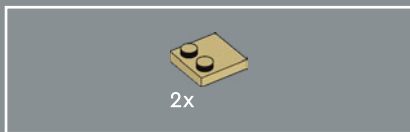

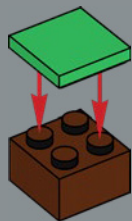

Geranio común (*Pelargonium x hortorum*)
 El fragante geranio común sirve tanto para fines estéticos como prácticos en un jardín sereno. Sus aceites naturales producen un aroma que ahuyenta a los insectos.

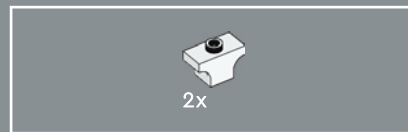

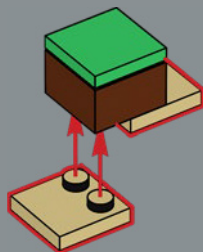

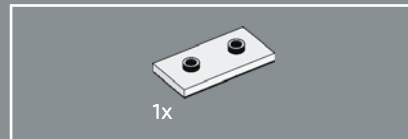

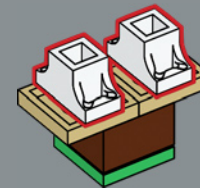

192

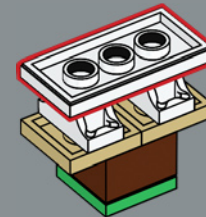

193

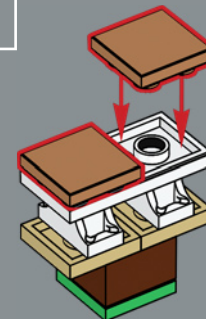

194

195

196

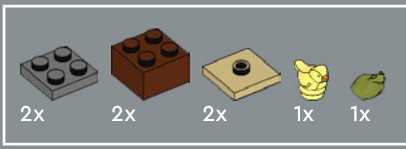

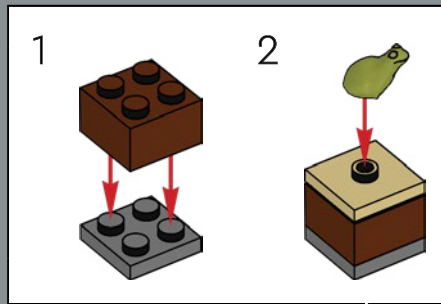

Rana común (*Pelophylax perezi*)
Originaria de la península ibérica, esta pequeña y veloz nadadora vive en hábitats de agua dulce y humedales.

197

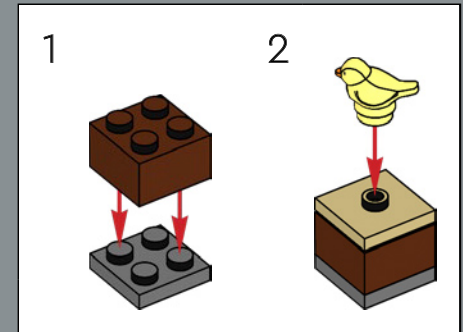

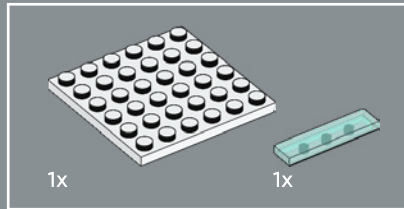

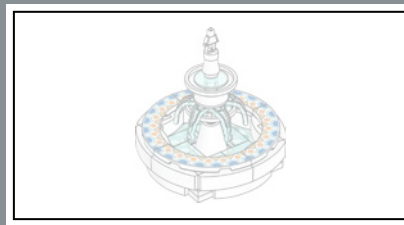

198

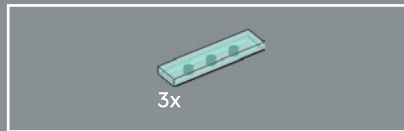

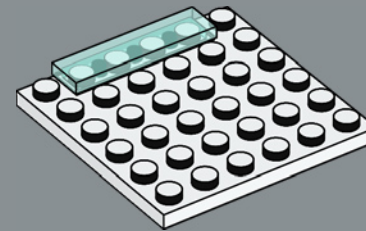

Escribano cerillo (*Emberiza citrinella*)
 El escribano cerillo, con su característico plumaje amarillo brillante y su distintivo canto, se encuentra por toda Europa.

215

216

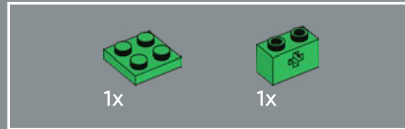

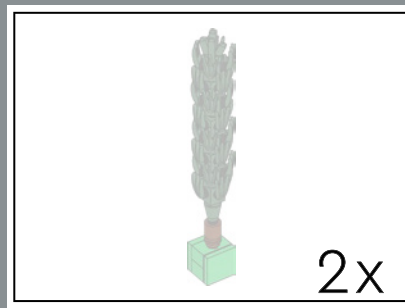

Mariposa isabelina (*Graellsia isabellae*)
 La mariposa isabelina, una impresionante especie con alas verdes y singulares ocelos, habita en los Pirineos. Es una especie "reliquia" que ha permanecido prácticamente inalterada desde la última glaciación.

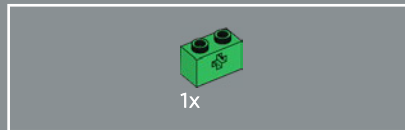

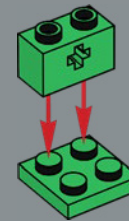

217

Clavel de moro (*Tagetes patula*)
Originarios de América Central, los aromáticos claveles de moro son muy apreciados por jardineros y cocineros de todo el mundo como decoración o para dar un toque de acidez a los postres dulces.

231

232

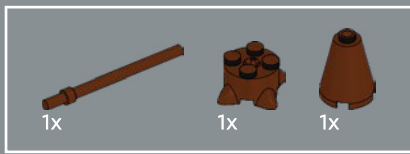

233

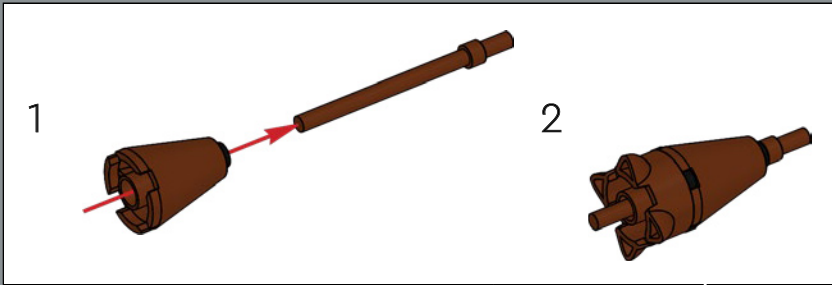

Parra (*Vitis vinifera*)

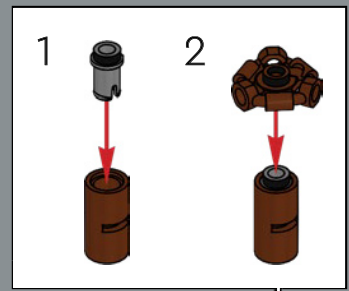

Las uvas, un alimento básico muy apreciado por su dulzura y jugosidad, fueron cultivadas por primera vez hace más de 10.000 años por las civilizaciones de la antigüedad.
