LEGO® Fortnite

Fortnite Battle Royale

LEGO® Fortnite worlds are 19x the size of the Fortnite Battle Royale Island!

# WHAT IS LEGO® FORTNITE?

LEGO® Fortnite is a survival crafting game, found inside Fortnite!

Explore vast, open worlds where the magic of LEGO building and Fortnite collide. But LEGO Fortnite isn't Battle Royale with minifigures. It's an entirely new experience that combines the best of both worlds, so that anyone who already has Fortnite downloaded can play LEGO Fortnite – alone or, even better, with friends.

Within LEGO Fortnite, you can collect food and resources, craft items, build shelter and battle enemies solo or team up with friends. Get creative in building and customising your ultimate home base using LEGO elements collected from the world around you, then recruit villagers to gather materials and help survive the night. Gear up and drop into deep caves in search of rare resources and hidden areas.

**FIND IT IN FORTNITE**

# THE ADVENTURE IS BUILDING

"As the LEGO Group creative lead on the game, it was important to me that we, in our team, made sure we achieved that characteristic LEGO® building feel in the gaming experience. During development, we shipped a huge amount of LEGO sets and bricks to our Epic Games partners, and we played a whole lot of Fortnite® and LEGO Fortnite versions, and shared ideas and inspiration. We wanted the building system to be super easy to use, but also allow for deep creativity. Epic Games suggested two building modes: Survival Mode, where you work with Blueprints, and Sandbox Mode, where only your imagination is the limit. It ended up in a great

place, and it will get even better over time. Playing with LEGO bricks and physics in an online multiplayer game is incredibly fun and filled with Learning through Play. We really wanted to imbue the values of the LEGO brand in a subtle way when it comes to interacting with animals, like making friends with them, collecting wool, milk and eggs – oh and poo! Lots of poo! Every day. Every massive LEGO Fortnite world is procedurally generated and unique to each player. I can't wait for fans to see what comes next!"

## **A BANANA IS BORN**

Peely slides into Fortnite as part of the Banana Bunch Set, ripe and ready for action.

## **BANANA MISHAP**

Peely narrowly escapes a volcano thanks to an underground bunker with everything needed to survive – exercise equipment, arcade machines, DJ set... everything, that is, except for food. Peely finds himself happily transformed into a smoothie to help sustain his fellow survivors.

# A BANANA IS BORN

## PEELY GOES ROBO

In a move to level up his liquid form, Peely now dons a robotic suit, earning him the nickname P-1000 – a Peely-powered combat banandroid.

## PEELY BONE RISES!

Peely is resurrected to his OG body.... minus a few select parts. He's probably going to be fine.

# MEET LEGO® PEELY BONE

"Peely, in all his versions, is one of the most popular Outfits in Fortnite, and the idea for this model started as a fun gift for one of our LEGO® Games team members who loves Peely Bone. As the first rough sketch model began to mature, we started to see the potential for an actual set. Making an asymmetrical figure that is split down the middle has been a really fun challenge to our usual way of building. We had to figure out the geometry and calculate angles to bring the model alive in an aesthetic and stable pose, and, fun fact, the backpack works as a counterweight to the paint launcher and banana pickaxe to keep the model in balance. All the decorations are printed, except for one – the banana sticker on the back because, you know, it's a banana sticker! Lots of elements have been used for widely different purposes than originally intended, like the white sausages used as ribs, the yellow phone on the foot and the white boomerangs as bones. The rest we'll let you discover on your own. Have fun building!"
