## Warm feelings for cold days

When the first signs of autumn and winter set in, it seems nature invites us to play with all its beautiful, seasonal colours and bounties. Bright berries complement evergreen branches, and leaves seem to radiate and spread rays of warm hues as they fall at your feet. Bringing these gorgeous bundles of colour into your home can create cosy sparkles of joy as we wait for lighter days to return. Add to that the delightful sense of accomplishment in the creative process as you bring all the shapes and colours that inspire you together, and you have a perfect excuse to snuggle up and indulge your senses. With this elegantly crafted LEGO® wreath or garland, you can extend that feeling of joy and change your decor throughout the winter season.

## Festive aromas

Each season has its charms. Even dark winter days give us moments of light to share with loved ones. Nothing evokes fond memories like the sweet, aromatic fragrances of the festive season – invigorating fir tree foliage, zesty orange slices, warm cinnamon or earthy pine sap. When you sit down to build this set, you can find inspiration from all these familiar scents and spices. Build a decorative wreath to hang on the wall, or a festive garland centrepiece for your tablescape. Add your own creative touch and customise it to suit your celebration, mood or interior decor. From the shape of the arrangement to the tiny details, simply swap out the berries or reconfigure the decorative elements and experiment with the elements to create new expressions. We hope this leaves you feeling toasty and comfortable on cool days, and that you will create new memories to look back on for years to come.

**KENYON ANDREW BRADY**

The underside of Fraser fir needles has a blueish tint, represented here by sand-green palm leaf elements – a new colour for this classic LEGO® element, which first appeared in 1989.

A cinnamon stick comes from the dried inner bark of a cinnamon tree. In ancient times, the spice was considered more valuable than gold.
