# A GIFT OF CREATIVE NATURE

The LEGO® Botanicals collection opens a door to a colourful field of creative possibilities. With sets inspired by flora from all over the world, nature-lovers can indulge in a cheerful take on 'forever flowers'. For this set, we curated a balanced composition of popular bouquet elements in an elegant white pedestal vase – with built-in versatility.

*Camellia x williamsii*

## Night Rider camellia

*Originally bred in the UK, this compact evergreen shrub with glossy, dark leaves is adorned with dark-maroon, semi-double flowers that bloom in late winter and early spring. In gardens, it can grow up to 1.5 m (about 5 ft.) tall and wide.*

## Itoh peony

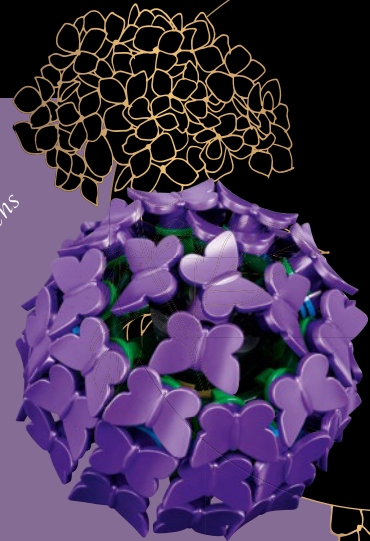

*Intersectional peonies were first cultivated in Japan in the 1940s. As hybrids between trees and herbaceous peonies, their flowers grow up to 20 cm (about 7.87 in.) wide.*

*Not typically suitable as a container plant, this LEGO® version, however, is guaranteed to blossom all year.*

*Paeonia Itoh*

*Hydrangea arborescens*

## Hydrangea

*Native to Asia, North America and South America, more than 70 species of these majestic shrubs have found their way into gardens worldwide. The blossoms vary in colour based on the pH value of the soil, from blue (acidic) to pink (alkaline) and white (neutral).*

## Baby's-breath

A popular staple in floral arrangements around the world, baby's-breath is light as a summer cloud. As a symbol of everlasting love, it adds an air of grace to a bouquet or centrepiece, even dried in vases or wreaths.

*Ranunculus*

## Persian buttercup

A tuberous perennial, the Persian buttercup can grow up to 60 cm (about 1.97 ft.) tall. With its densely layered petals in soft or bright colours, this lavish and long-lasting cut flower brightens any space, indoors or in your garden.

*Bouvardia*

## Hummingbird flower

*Like a miniature bouquet in every stem, each flower erupts into a delightful little star – inspiring its other familiar names: 'firecracker bush' or 'trumpetellia'. Originating from Central America, some of its family members can also be found in Europe and Canada.*

## Lily flower

*With between 80 and 100 species, and almost as many colour variations, lilies captivate us with their pleasant aroma and glowing intensity. Symbols of timeless elegance and purity, they are a cherished choice for celebrations and heartfelt gestures.*

*Lilium*

# PLANT A SEED OF INSPIRATION

Building a LEGO® Botanicals Flower Arrangement is just the beginning. Any time you feel inspired to rearrange your display, just switch the flower heads between the stems, or mix and match more sets to create all-new bouquets. Whichever complements the seasons, your mood and your interior decor. If you are already a seasoned LEGO florist, why not branch out and rebuild your set into different species, too!

# 119

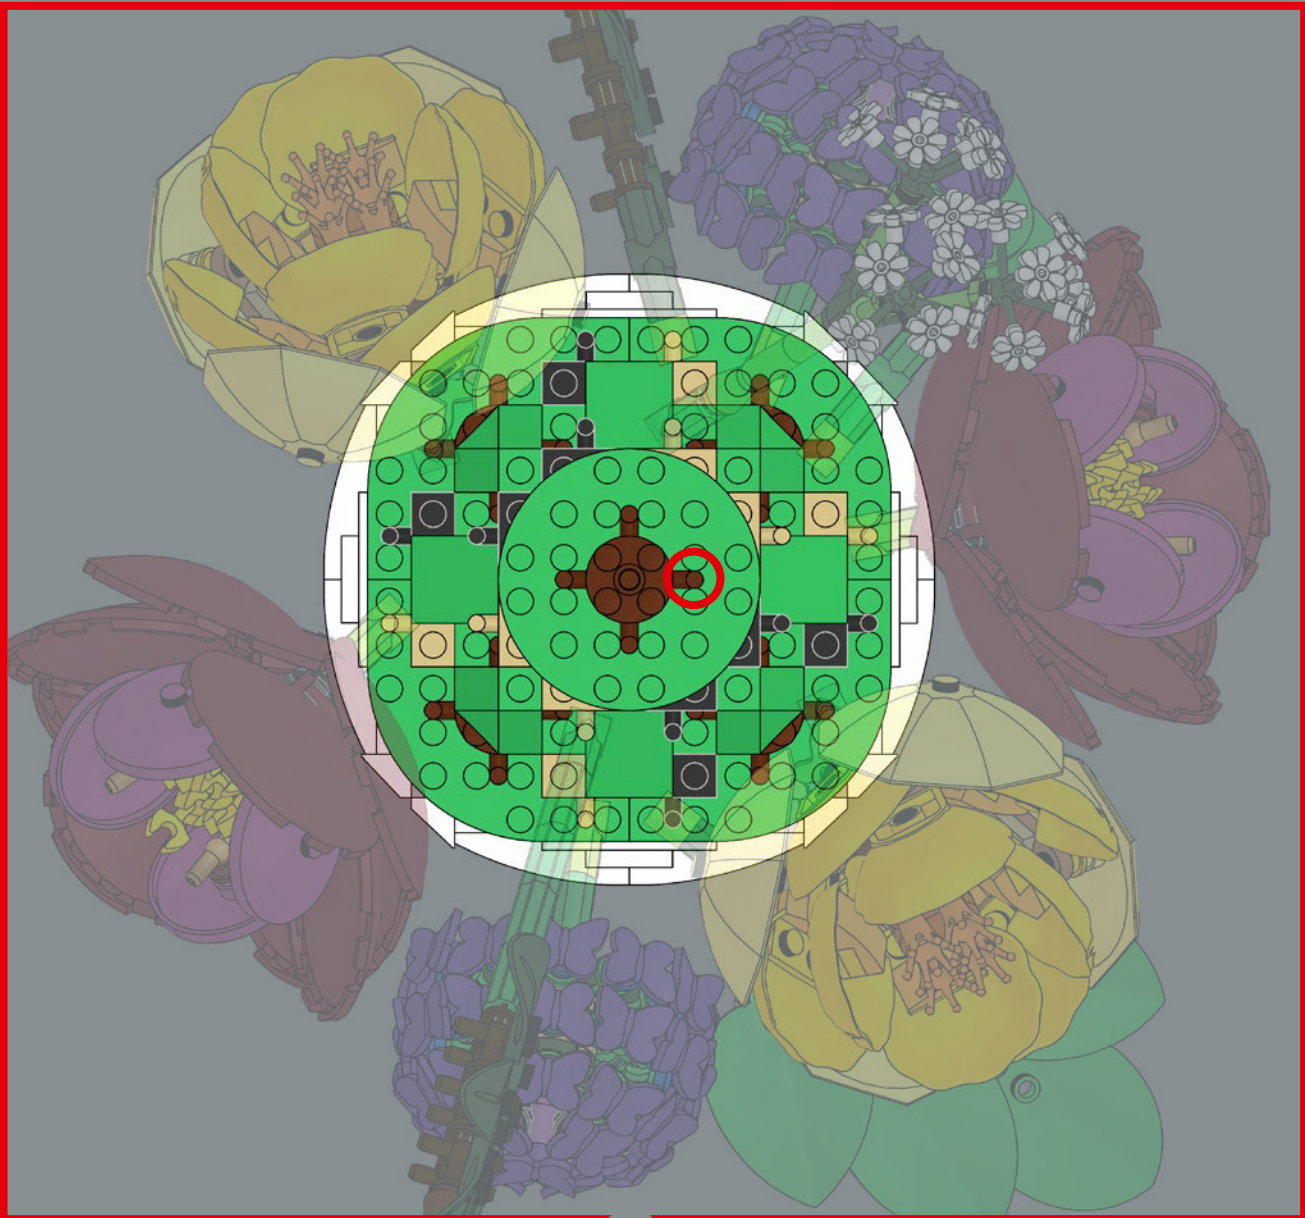

Baby's-breath: Say cheese! The stem is made of tripod elements that were originally designed to help LEGO® minifigures steady their cameras. Now they hold bunches of baby's-breath. This might be a good time to take a selfie to document your progress.
