LEGO® Builder

## WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

## NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

## QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

## A GIFT OF CREATIVE NATURE

The LEGO® Botanicals collection opens a door to a colorful field of creative possibilities. With sets inspired by flora from all over the world, nature lovers can indulge in a cheerful take on 'forever flowers'. For this set, we curated a balanced composition of popular bouquet elements in an elegant white pedestal vase – with built-in versatility.

## UN CADEAU DE NATURE CRÉATIVE

La collection LEGO® Botanique ouvre la porte à un champ coloré de possibilités créatives. Grâce à des ensembles inspirés par la flore du monde entier, les amoureux de la nature peuvent profiter d'une charmante interprétation des « fleurs éternelles ». Pour cet ensemble, nous avons créé une composition équilibrée d'éléments de bouquet populaires dans un élégant vase blanc à piédestal – avec une polyvalence intégrée.

## UN REGALO DE NATURALEZA CREATIVA

La colección LEGO® Botanical abre las puertas de un colorido campo lleno de posibilidades creativas. De la mano de sets inspirados en flora de todos los rincones del mundo, los amantes de la naturaleza podrán consentirse con una alegre interpretación de las *flores eternas*. Para este set, seleccionamos cuidadosamente una serie de elementos muy populares en los ramos, creamos una equilibrada composición con ellos y los colocamos en un jarrón blanco... con versatilidad integrada.

*Camellia x williamsii*

### **Night Rider camellia**

*Originally bred in the UK, this compact evergreen shrub with glossy, dark leaves is adorned with dark maroon, semi-double flowers that bloom in late winter and early spring. In gardens, it can grow up to about 5 ft. (1.5 m) tall and wide.*

### **Camélia « Night Rider »**

*Cultivé à l'origine au Royaume-Uni, cet arbuste compact à feuilles persistantes, brillantes et foncées est orné de fleurs semi-doubles marron foncé qui fleurissent à la fin de l'hiver et au début du printemps. Dans les jardins, il peut atteindre 1,5 m de haut et de large.*

### **Camelia Night Rider**

*Cultivado originalmente en el Reino Unido, este tupido arbusto de hoja perenne con follaje brillante de color verde oscuro está adornado con flores semidobles en rojo carmesí que florecen a finales del invierno y al comienzo de la primavera. En los jardines, puede alcanzar hasta 1,5 m de altura y anchura.*

## Itoh Peony

Intersectional peonies were first cultivated in Japan in the 1940s. As hybrids between trees and herbaceous peonies, their flowers grow up to about 7.87 in. (20 cm) wide. Not typically suitable as a container plant, this LEGO® version, however, is guaranteed to blossom all year.

## Pivoine Itoh

La pivoine intersectionnelle a été cultivée pour la première fois au Japon dans les années 1940. Croisement improbable entre une pivoine herbacée et une pivoine arbustive, cette plante présente des fleurs pouvant mesurer jusqu'à 20 cm de large. Elle n'est généralement pas adaptée pour la mise en pot, mais cette version LEGO® fleurira tout au long de l'année.

## Peonía Itoh

Las peonías intersectionales se cultivaron por primera vez en Japón en la década de 1940. Resultado del cruce entre peonías herbáceas y arbóreas, las flores de estos híbridos crecen hasta tener unos 20 cm de anchura. Aunque no es, generalmente, una planta adecuada para su cultivo en maceta, esta versión LEGO® florecerá durante todo el año con total seguridad.

Peonía Itoh

Hydrangea arborescens

## Hydrangea

Native to Asia, North and South America, over 70 species of these majestic shrubs have found their way to gardens worldwide. The blossoms vary in color based on the pH value in the soil, from blue (acidic) to pink (alkaline) and white (neutral).

## Hydrangée arborescente

Originnaire d'Asie, d'Amérique du Nord et d'Amérique du Sud, cet arbuste majestueux compte plus de 70 espèces qui se sont imposées dans les jardins du monde entier. La couleur des fleurs varie en fonction du pH du sol, du bleu (acide) au rose (alcalin) en passant par le blanc (neutre).

## Hortensia

Autóctonos de Asia, Norteamérica y Sudamérica, más de 70 especies de estos majestuosos arbustos se han ganado un lugar en los jardines de todo el mundo. Sus flores varían de color en función del pH del suelo, y adquieren desde tonos azules (ácido) hasta rosas (alcalino) y blancos (neutro).

### Baby's breath

A popular staple in floral arrangements around the world, baby's breath is light as a summer cloud. As a symbol of everlasting love, it adds an air of grace to a bouquet or centerpiece, even dried in vases or wreaths.

### Souffle de bébé

Populaire élément de base des compositions florales dans le monde entier, le souffle de bébé est aussi léger qu'un nuage d'été. Symbole de l'amour éternel, il ajoute une touche de grâce à un bouquet ou à un centre de table, même séché dans des vases ou des couronnes.

### Nube

Un básico en los arreglos florales de todo el mundo y de ligereza semejante a una nube de verano. Símbolo del amor eterno, esta delicada planta aporta un aire de elegancia a cualquier ramo o centro de mesa, incluso seca en jarrones o en coronas.

*Ranunculus*

### Persian buttercup

A tuberous perennial, the Persian buttercup can grow up to about 1.97 ft. (60 cm) tall. With its densely layered petals in soft or bright colors, this lavish and long-lasting cut flower brightens any space, indoors or in your garden.

### Renoncule

Plante vivace tubéreuse, la renoncule peut atteindre jusqu'à 60 cm de haut. Avec ses pétales densément stratifiés aux couleurs douces ou vives, cette fleur coupée somptueuse et durable illumine n'importe quel espace, à l'intérieur ou dans votre jardin.

### Ranúnculo

El ranúnculo, una planta herbácea perenne de raíces tuberosas, puede crecer hasta unos 60 cm de altura. De pétalos densamente agrupados en colores suaves o intensos, esta flor cortada exuberante y duradera ilumina cualquier espacio, ya sea en interiores o en tu jardín.

Bouvardia

### Hummingbird flower

*Like a miniature bouquet in every stem, each flower erupts into a delightful little star – inspiring its other familiar names: 'firecracker bush' or 'trumpetellia'. Originating from Central America, some of its family members can also be found in Europe and Canada.*

### Fleur de colibri

*Tel un bouquet miniature dans chaque tige, chaque fleur éclate en une jolie petite étoile. Cette plante est d'ailleurs également surnommée « buisson de feu d'artifice » ou « petite trompette ». Originaire d'Amérique centrale, ce genre de plantes à fleurs est également présent en Europe et au Canada.*

### Flor de colibrí

*Como un ramillete en miniatura en cada tallo, la flor se abre en una encantadora estrellita que inspira otro de sus nombres comunes: trompetilla. Originaria de Centroamérica, también pueden encontrarse algunos miembros de la familia en Europa y Canadá.*

### Lily flower

*With between 80 and 100 species, and almost as many color variations, lilies captivate us with their pleasant aroma and glowing intensity. Symbols of timeless elegance and purity, they are a cherished choice for celebrations and heartfelt gestures.*

### Fleur de lys

*Comptant entre 80 et 100 espèces, et presque autant de variations de couleurs, le lys nous envoûte par son arôme agréable et l'intensité de son éclat. Symbole d'élégance et de pureté intemporelles, il est un excellent choix pour les célébrations et les gestes sincères.*

### Azucena

*Con 80-100 especies y casi el mismo número de variaciones de color, las azucenas nos cautivan con su agradable aroma y encendida intensidad. Símbolos de elegancia atemporal y pureza, son una opción muy apreciada para celebraciones y gestos sinceros.*

Lilium

## PLANT A SEED OF INSPIRATION

Building a LEGO® Botanicals Flower Arrangement is just the beginning. Anytime you feel inspired to rearrange your display, just switch the flower heads between the stems, or mix and match more sets to create all-new bouquets. Whichever complements the seasons, your mood and your interior decor. If you are already a seasoned LEGO florist, why not branch out and rebuild your set into different species, too!

## PLANTEZ UNE GRAINE D'INSPIRATION

Construire une composition florale LEGO® Botanique n'est que le début. Lorsque vous avez envie de changement, il vous suffit d'invertir les fleurs entre les tiges, ou de mélanger et d'assortir d'autres ensembles pour créer de nouveaux bouquets. Vous pouvez ainsi adapter votre composition aux saisons, à votre humeur et à votre décor. Si vous êtes déjà un fleuriste LEGO chevronné, pourquoi ne pas reconstruire votre ensemble en différentes espèces ?

## PLANTA UNA SEMILLA DE INSPIRACIÓN

Construir el Arreglo Floral LEGO® Botanical es solo el comienzo. Cada vez que desees darle una nueva expresión a tu pieza ornamental, cambia las flores de un tallo a otro o mezcla varios sets para crear ramos totalmente nuevos: lo que combine mejor con las estaciones, tu estado de ánimo o la decoración de tu hogar. Si ya se te dan bien las flores LEGO, ¡reconstruye tu set para convertirlo en una especie diferente también!

# 119

Baby's breath: Say cheese! The stem is made of tripod elements that were originally designed to help LEGO® minifigures steady their cameras. Now they hold bunches of baby's breath. This might be a good time to take a selfie to document your progress.

Souffle de bébé : Souriez ! La tige est composée d'éléments de trépied qui ont été conçus à l'origine pour aider les figurines LEGO® à stabiliser leur appareil photo. Maintenant, ils tiennent des grappes de souffle de bébé. C'est peut-être le moment de prendre un égoportrait pour montrer vos progrès.

Nube: ¡Sonríe! El tallo está hecho de elementos que representan trípodes y que se diseñaron originalmente para ayudar a las minifiguras LEGO® a mantener firmes sus cámaras. Ahora, sostienen ramilletes de delicada nube. Este podría ser un buen momento para tomarse una selfie y documentar cuánto avanzaste.
